

MODULE ASSEMBLY

BUILDING BETTER PIECE BY PIECE

INCREASE EFFICIENCY WITH MODULAR ASSEMBLY

From assembly, to transportation, to installation, our full-service yards are strategically located to expedite and enhance project turnaround time. We've completed modular assembly and installation projects across the country, with every single one driving us forward as we seek new ways to enhance project timelines and productivity.

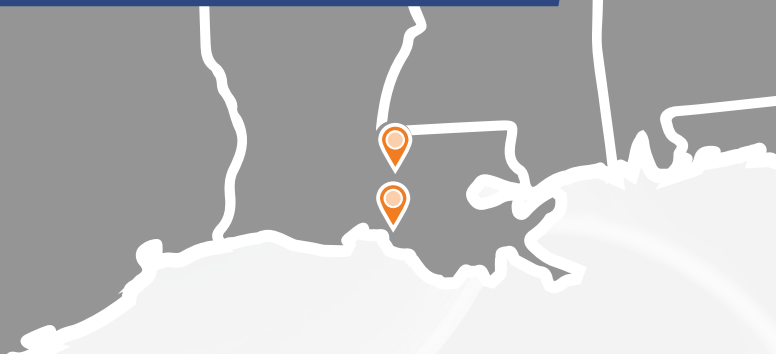

MODULE ASSEMBLY YARDS

Morgan City, LA (252 acres) • Port Allen, LA (82 acres)

Largest modules assembled: 150'L x 80'W x 110'H
(3,700 Tons)

25 years of module assembly experience

Highway and barge transportation capabilities

MORGAN CITY

LOUISIANA

With rising demand for domestically built, mega scale modules, our Morgan City yard is able to build bigger and better with no height or weight restrictions on barge transport.

OUR FACILITY:

- Sits on 252 acres
- 4,000 ft waterfront bulkhead with barge access to the Mississippi River & Gulf of Mexico
- Office space and storage area available

BARGE TRANSPORT:

No Height or Weight Restrictions

HIGHWAY TRANSPORT:

Capacity: 120' L x 26' W x 16' H + Tons

PORT ALLEN

LOUISIANA

With waterfront access to the Mississippi River and the Intracoastal Waterway and easy access to Interstate 10 and LA Hwy. 1, our timeline from assembly to delivery cannot be matched.

OUR FACILITY:

- Sits on 82 acres
- 350 ft waterfront bulkhead with barge access to the Mississippi River & Intracoastal Waterway
- Heavy-haul access to I-10 and LA Hwy. 1

BARGE TRANSPORT:

Capacity: 300' L x 70' W
(Lock Clearance) x 60' H (Bridge Clearance)

HIGHWAY TRANSPORT:

Capacity: 120' L x 26' W x 16' H + Tons
