Thursday 8 June 2023; session I

1. Premonitory urge and tic severity, comorbidities, and quality of life in chronic tic disorders
   Natalia Szejko

2. Revision of the Rush Video-Based Tic Rating Scale
   Carolin Fremer

3. Development in pharmacological treatment of children with chronic tic disorders during the last two decades in Denmark
   Liselotte Skov

4. What influence do persisting primitive reflexes have on the expression or triggering of tic disorders or Tourette?
   Ralph Meyers

5. Microaggressions Experienced by Emerging Adults (16-25 years old) with Tourette Syndrome
   Coralie Beaulieu

   Natalia Szejko

7. Non-just-right experiences are more closely related to OCD than tics in Tourette patients
Catharina Cramer
8. Somatosensory temporal discrimination in adolescents with Tourette Syndrome: a pilot study
Valentina Baglioni

9. Free or not free? - this is the question. Control over tics and free will in patients with Gilles de la Tourette syndrome
Natalia Szejko

Tamsin Owen

11. Tic Surf School Pilot: An Urge Acceptance Behavioral Intervention
Amanda Maxwell

12. Changes in tic suppression ability and urge intensity over a 10-week habit reversal training in adult patients with Tourette syndrome
Antonia-Leonie Eberhard

13. Online - open ended training group “Parents Living Well with Tics”: A retrospective study
Dana Feldman-Sadeh

Sarah Atkinson

15. Design of a Phase 3 Maintenance-of-Effect Trial of Ecopipam in Tourette Syndrome
Sarah Atkinson

16. Promising preliminary results on a clinical trial to explore the safety and efficacy of sepranolone in pediatric and adult patients with Tourette syndrome
Heidi Biernat
17. Exploring Clinical Pathways for Tics and Tourette Syndrome: Perspectives from Healthcare Professionals and Patients
Johanna Fijn van Draat

18. Placebo effect in randomized clinical trials of patients with tic disorders - results of the systematic review and meta-analysis
Natalia Szejko

19. Lessons learned from randomized-controlled studies in patients with Tourette syndrome and chronic tic disorders
Carolin Klages

20. Different autoantibody concentrations in serum and CSF in Tourette syndrome
Kurt-Wolfram Sühsjko

**Friday 9 June 2023; session II**

21. Clarifying the differences between patients with Organic Tics and Functional Tic-Like Behaviors
Kaja Andersen

22. Literature review and clinical perspective in the management of functional tic-like behaviours within a tertiary children’s hospital in England
Laavanya Damodaran

23. The retrospective analysis of outcomes of pediatric patients with functional tic-like behaviors – what lessons have we learnt?
Kinga K. Tomczak

24. Pilot surveillance study of a UK cohort of adolescents presenting with functional tic-like behaviours (FTLB)
Alexandra Ducroizet
25. Functional Motor Disorders in pediatrics: clinical motor correlates and neuropsychiatric profiles
   Valentina Baglioni

26. An exploration of attention deficit hyperactivity disorder in young people presenting with functional tic-like behaviours
   Savva Pronin

27. Functional Tic-like behaviours: A Comparison with Tourette syndrome and Functional Symptoms in Children and Adolescents
   Abbie Smith

28. Characterising young people with functional tic-like behaviours (FTLB) in the context of functional symptoms: preliminary data analysis
   Miles Frankland

29. Identifying autism spectrum disorder (ASD) in young people presenting with functional tic like behaviours
   Morvwen Duncan

30. The Tourette OCD Alberta Network: Development of an Online Parental Peer Discussion Group
    Julian Fletcher

31. Clinician network as a strategy for building and maintaining competence on Tourette Syndrome and Habit Reversal Training in the specialist health services
    Kari Anne Pedersen

32. The Tourette OCD Alberta Network: Development of an Educational Outreach Program for Schools
    Julian Fletcher

33. Exploring Services for Tics in Children and Young People in England
    Alexia Jeayes
34. Correlation of comorbidities and variability of tics in children with Tourette syndrome and chronic tic disorder  
Kaja Andersen

35. Tics in Children and Adolescents in Primary Care  
Sofie Peschar dt

36. “For the love of God just refer me” - A coproduced qualitative project into the struggles of accessing healthcare services for those living with Tourette Syndrome in the UK  
Camilla Babbage

37. Experiences of self-identification, diagnosis and support for adults seeking a late diagnosis of tic disorders in the United Kingdom  
Danni Phoenix-Kane

38. Science-society rifts on tics, compulsions, and Tourette’s: Perspectives of a panel of Tourettic persons and Tourette’s researchers  
Diana Beljaars

39. Letting Tourette’s be: The importance of understanding lived experience in research and the clinic  
Diana Beljaars

40. Representation of Gilles de la Tourette syndrome in visual art  
Natalia Szejko
