**EnviroShield™**

Smart Shutter Tech for  
Rangehoods and Exhaust Fans

Up to 20x better thermal  
**retention** compared to  
standard systems

Energy savings up to 20%,  
reducing heat and cooling  
costs

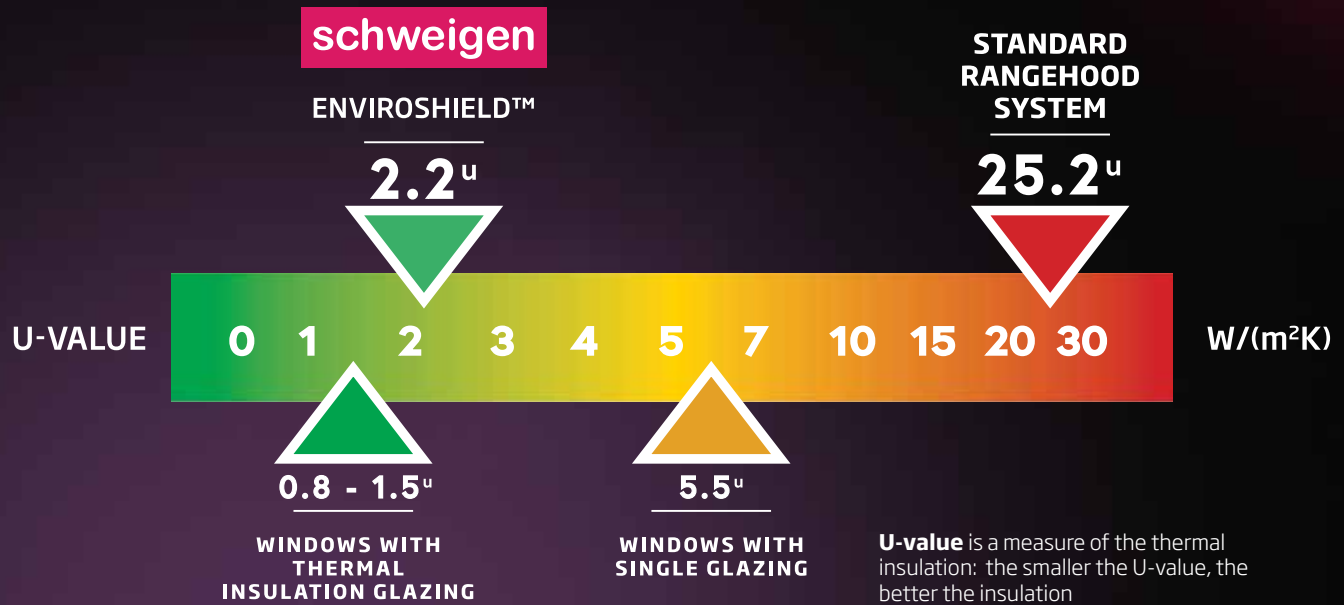

Improved indoor climate  
and comfort all year-round

**Low U-value of only  
2.2 W/(m<sup>2</sup> K)** ensures  
superior insulation and  
energy retention.

# THE ULTIMATE THERMAL RETENTION SOLUTION FOR YOUR HOME

The Schweigen EnviroShield™ is a groundbreaking energy-efficient solution designed to optimize your home's ventilation while keeping energy costs low. Engineered in Germany using advanced thermal technology, it ensures exceptional energy savings, enhances indoor comfort, and boosts overall home efficiency.

With superior insulation rated at just 2.2 watts per square meter, the EnviroShield™ significantly reduces energy loss, helping to maintain a stable indoor temperature. It's also blower door certified, meaning it creates a strong, airtight seal that prevents heat from escaping, even under high pressure, ensuring your home stays warm in winter and cool in summer.

The innovative Shutter Tech feature adds another layer of efficiency. When your rangehood or exhaust fan is turned off, the system automatically closes, blocking cold or hot outside air from entering your home. This not only reduces heat loss but also helps lower your energy bills.

For added reliability, the magnetic closing mechanism provides a dependable, airtight seal, effectively preserving your home's thermal envelope. By keeping your indoor air where it belongs, the Schweigen EnviroShield™ helps create a more sustainable, comfortable, and energy-efficient living environment.

**Efficient thermal insulation** minimizes heat loss and enhances energy efficiency.

**Heat insulating reflective layer** reduces heat transfer and improves thermal performance.

**Versatile Installation options:** can be installed horizontally or vertically

**Blower-Door opening pressure >65 Pa** prevents leaks, ensuring environmental control.

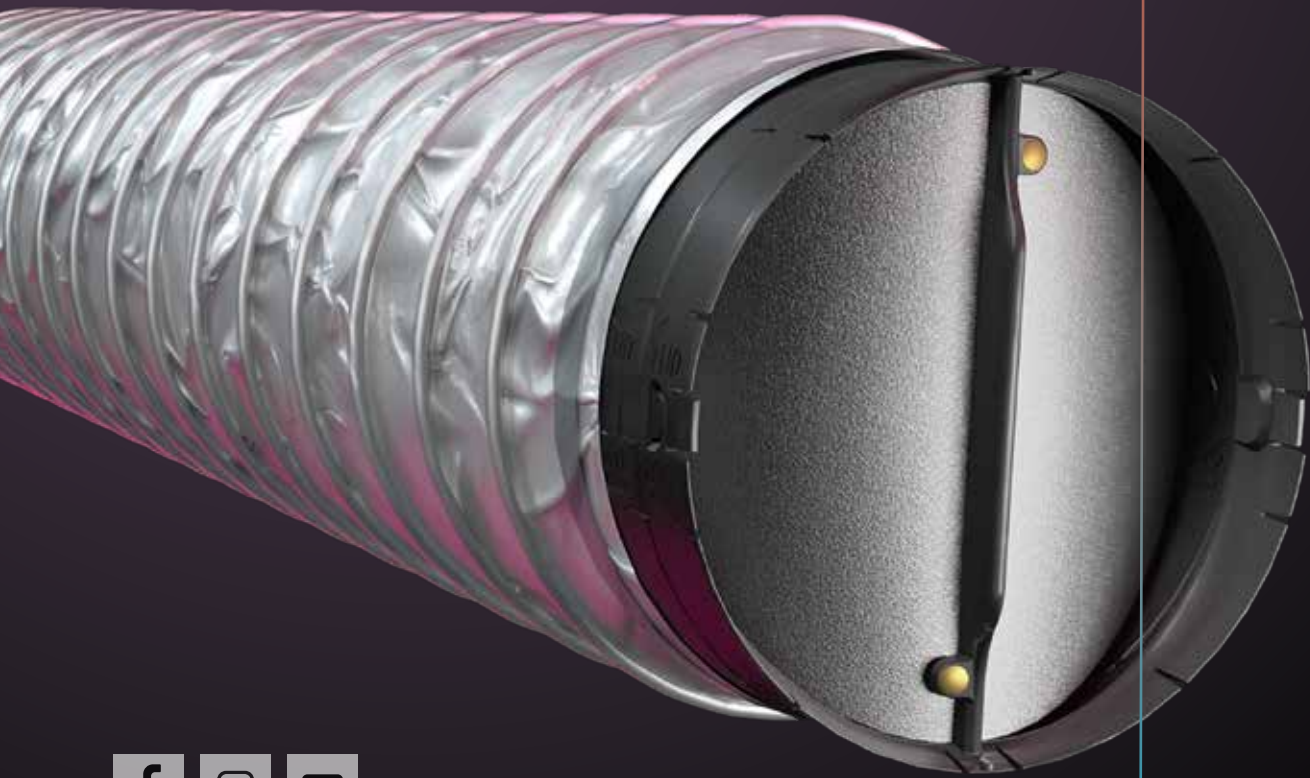

## MAXIMIZE YOUR HOME'S EFFICIENCY TODAY

Visit our website at [www.schweigen.com.au](http://www.schweigen.com.au) to learn more about the Schweigen EnviroShield™ and how it can help you save energy, reduce costs, and enjoy a more comfortable home environment.
