Warm2ColdLED lighting has adjustable lighting colour - from warm to cold (2900K - 6000K). The warm colour of light, most similar to sunlight, does not strain the eyes and puts you in a good mood.

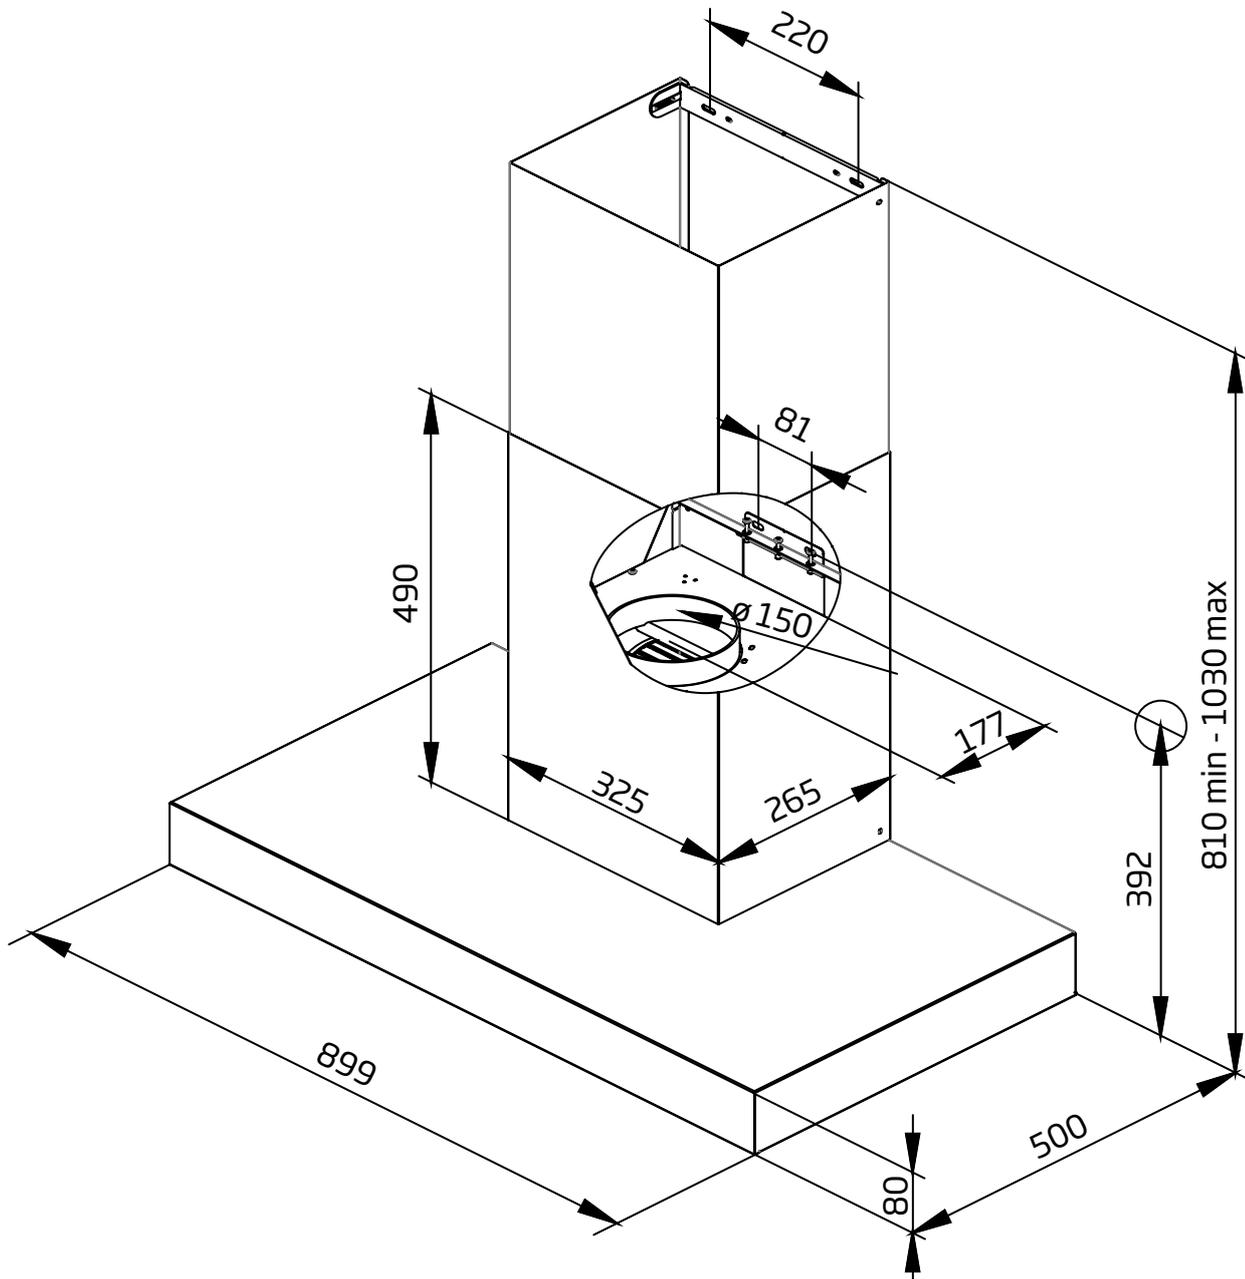

Touchless Gesture Control lets you operate the hood and its functions without having to physically touch the control panel. The Nova also comes with a remote control.

Runs virtually silent. The energy-efficient motor system uses up to 95% less energy compared to traditional motors of the same extraction rate. Keeps kitchen air fresher for longer.
