AIRFLOW:
1080m³/h

HEIGHT X DIAMETER
958–1188 × 382 × 382 mm

FILTER:
1 x Fine Mesh

COLOURS

The smooth, simple form without visible buttons will attract the attention of every lover of minimalism and aesthetics.

Cylindrical Warm2ColdLED lighting. LED lighting (2900K - 6000K) in the form of a circle is the only peripheral solution used on the market. The cylindrical frame around the hood allows for precise illumination of the cooktop, which provides ideal cooking conditions.

Touchless GestureControl system. You can turn the hood on and off or change its operating mode without interrupting cooking, drying your hands or touching the control panel. Gesture Control technology allows you to turn the lighting on and off with one hand movement. Also comes with a convenient remote control.

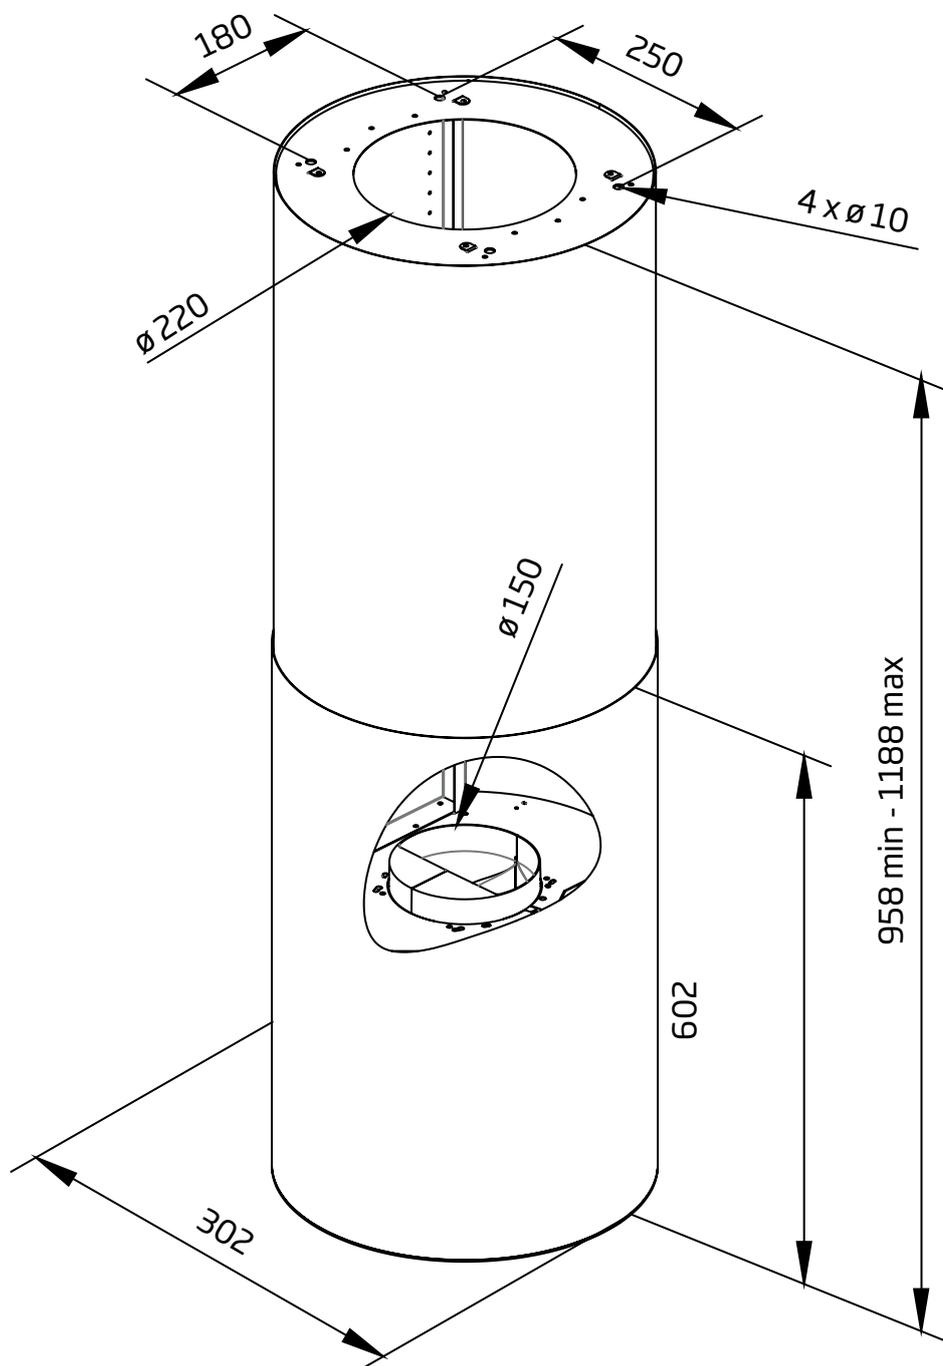

High durability and aesthetics of colour. Each hand-painted with 3 coats of paint for greater resistance to grease, dirt and dust.

Runs virtually silent. The energy-efficient motor system uses up to 95% less energy compared to traditional motors of the same extraction rate. Keeps kitchen air fresher for longer.
