Property Maintenance

Woodwork

Snow Removal

Lynda and Kevin. They were patient with us during our backyard reno. Everything went smoothly and we got a great finished product :)

Becca Hollingsworth

Willow recently completed our backyard - with a new patio and grass area. We enjoyed the design process so we would know exactly what to expect and it helped us visualize the new space. During the construction there were a few issues that we brought up and they were always addressed immediately and to our satisfaction. The crew was professional and left the street clean each night. We are so happy with our new space and feel as though we've added an entire outdoor room to our house.

- Robin Stirling

Wanted to work with a Company who would take a small job - Willow were the ones who took it on and delivered it with all the attributes! The small job turned into a complete renovation - top notch work in difficult conditions, cleanliness, and reliability - would recommend them to anyone! Well done Kevin, Lynda, and Draper - it was a pleasure working with you and the Team!
