

Job Title: Construction Inspector

Company Overview:

Ecological Design Group (EDG) is an Arkansas-based, multidisciplinary design firm specializing in landscape architecture, civil engineering, and site development, with a growing focus on outdoor recreation, community-centered infrastructure, and environmentally responsive design. Our work spans parks, trails, campuses, public spaces, ecological restoration, and mixed-use developments; projects that connect people to place and balance technical performance with meaningful experience.

We are driven by a shared commitment to creating **equitable environments, connected cultures, and impactful experiences**, and we value curiosity, collaboration, and hands-on learning at every level of our team.

Position Overview:

Ecological Design Group is seeking a skilled and detail-oriented Construction Inspector to join our growing team in Rogers, AR. In this role, you will ensure that our environmentally conscious construction projects meet all applicable codes, standards, and specifications. You'll play a vital role in maintaining quality and compliance across a variety of multi-family, commercial, and public infrastructure developments throughout Northwest Arkansas.

Responsibilities

- Perform routine and detailed inspections of construction sites to ensure compliance with approved plans, building codes, and regulations
- Monitor construction activities and materials for quality and adherence to specifications
- Document inspection results and prepare comprehensive reports for project stakeholders
- Identify and report any deficiencies or deviations from project requirements
- Collaborate with contractors, engineers, and architects to resolve issues and maintain project timelines
- Coordinate with municipal and private utility companies to ensure proper installation and connection of services
- Verify proper installation of structural components, utilities, and finishes
- Maintain accurate records of inspections, permits, and project progress
- Stay current with local, state, and federal construction regulations

Qualifications

- High school diploma or equivalent
- Preferred 2–5 years of experience in construction inspection or a related role

- Strong knowledge of construction methods, materials, codes, and standards
- Ability to read and interpret construction documents, technical drawings, and specifications
- Excellent communication, documentation, and problem-solving skills
- Proficiency with inspection tools and reporting software
- Valid driver's license and reliable transportation for site visits throughout Northwest Arkansas.
 - Clean driving record and drug test required.
- Surveying experience preferred

How to Apply:

Please submit your resume and a brief cover letter outlining your interest in the position to marketing@ecologicaldg.com.
