4 levers to improve your project profitability

Plan and allocate your resources

Build schedules in just a few clicks. Assign the right teams, equipment, and materials **to the right place, at the right time**. Civalgo automatically detects conflicts, gaps, or overloads, **helping you optimize your planning process**.

Track your jobsites in real time

With the **Logbook mobile app**, your crews can fill out their daily reports **in just minutes**. Hours, weather, issues, photos: **everything is synced with the office**, even offline, for smoother, **more reliable reporting**.

Automate payroll and billing

Time entries from the field are **automatically linked to your payroll rules**. Timesheets and work orders are **signed digitally**, reviewed, and submitted for invoicing. You **save time** and reduce the risk of errors.
