Intensive language training with Total Immersion® - Riju Mukhopadhyay:
“The Total Immersion program helped me to get a condensed and intense learning experience which accelerated my confidence and comfort with the German language. The continuity that this experience offers is useful in maintaining focus. I would recommend this to someone who finds it difficult to maintain continuity and focus on German language learning due to work and family reasons, and needs additional confidence in speaking the language.”

Berlitz Flex

Why we chose Berlitz

“The thing we really like about Berlitz Flex is that we can be flexible when it comes to the timing of courses. All participants can learn at their own pace and pause things at any time. It’s also really convenient for our everyday work that the live coaching sessions are available 24/7. It’s the variety of the course content that makes the format so interesting, but also having all the different listening, reading, and writing in a digital space. Also, the speech recognition helps with the correct pronunciation. But the really big highlight is the live coaching sessions. The trainers are professionals and they give you individual feedback, so you get so many tips. Bottom line for us, Berlitz Flex is fun and it’s great if you want to keep the learning process flexible, or if for example you can only find time in the evenings or on weekends. It means you can learn around the clock.”

Victor’s Residenz Hotels

Language Training for international trainees funded by BAMF

Why we chose Berlitz

The challenge:
Around three year ago, we noticed that many of our foreign trainees were having difficulties with the theoretical part of their training. The reason for this was not so much a lack of motivation or a lack of education, but mainly due to the language barrier.

The solution:
Through our research we found Berlitz and found open doors, ears and hearts. Berlitz developed specific concepts, tailored to our training professions in the hotel and catering industry, which ultimately convinced us. And as a bonus, added to this: 100 percent of the training is funded by the Federal Office (BAMF). The first three German courses started in September 2023 in the Saarland, and despite initial challenges such as coordination and paperwork, we have since formed a strong team.

Victor’s Residenz Hotels

Language Training for international trainees funded by BAMF

Why we chose Berlitz

The feedback:

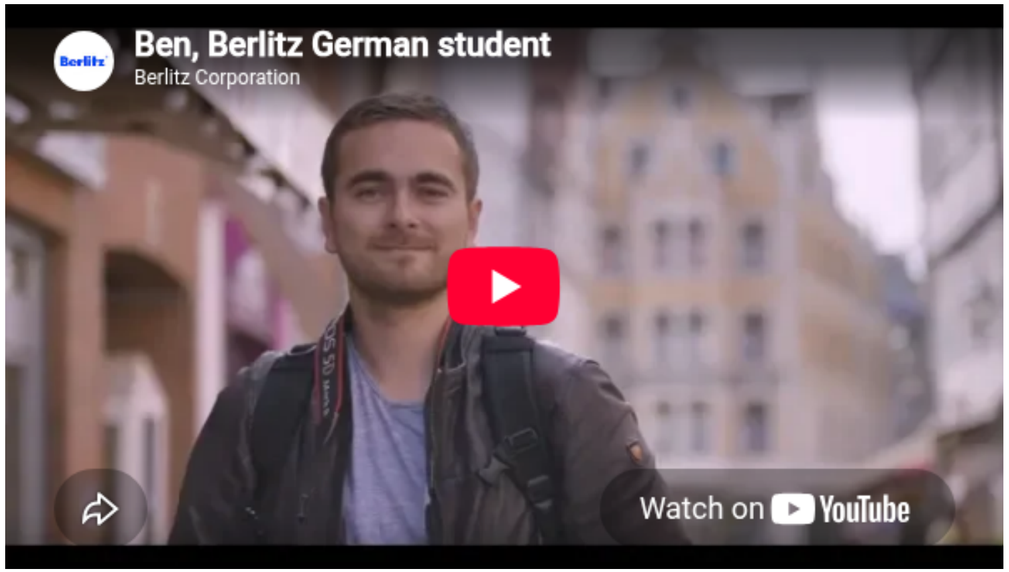

After a year of German lessons, we are seeing clear progress. The qualified and friendly instructors quickly found a connection with the young people, so that a relationship of trust has developed, even though the lessons only take place online. The small group sizes have also encouraged the development of friendships. We have noticed a huge improvement in our day-to-day work: misunderstandings during instructions and handovers have become much rarer, and the trainees have become more open and confident - both of which are essential for communicating with our guests.
