What are the risks of investing?

Risk indicator for the NZD Balanced Fund¹

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

⚠ To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for a five year period to 31 March 2025.

While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (**PDS**) for more information about the risks associated with investing in this Fund.

How has the Fund performed?

| | Average over past 5 years | Past year |
|---|---------------------------|-----------|
| Annual return (after deductions for charges and tax) | 5.57% | 4.28% |
| Annual return (after deductions for charges but before tax) | 6.13% | 4.91% |
| Composite of market index annual return (reflects no deduction for charges and tax) and peer group index annual return (after deduction for charges but before tax) | 6.77% | 6.33% |

The composite index return is the strategic asset allocation-weighted aggregate performance of relevant market and peer group indices. Additional information about the composite index is available on the offer register.

Annual Return Graph

This shows the return after fund charges and tax for each year ending 31 March since the Fund started. The last bar shows the average annual return since the Fund started up to 31 March 2025.

Important: This does not tell you how the Fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

The average annual return for the Fund is calculated from the date the first contribution was received on 30 September 2019.

The average annual return for the composite index is calculated from 1 October 2019.

What fees are investors charged?

| Investors in i-Select PIE NZD Balanced Fund are charged fund charges. In the year to 31 March 2024 these were: | |
|--|----------------------------|
| | % of net asset value |
| Total fund charges ² | 1.53% |
| Which are made up of — | |
| Total management and administration charges | 1.53% |
| Including — | |
| Manager's basic fee | 0.80% |
| Other management and administration charges | 0.73% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor |
| | \$0.00 |

Investors may also be charged individual action fees for specific actions or decisions (for example, withdrawal fees in certain circumstances). See the Product Disclosure Statement and Other Material Information document on the i-Select PIE Superannuation Scheme's offer register at www.companies.govt.nz/disclose for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Jane had \$10,000 in the Fund at the start of the year and did not make any further contributions. At the end of the year, Jane received a return after fund charges were deducted of \$491 (that is 4.91% of her initial \$10,000). Jane paid \$0 in other charges. This gives Jane a total return after tax of \$428 for the year.
