

i-Select

Superannuation Scheme

Investment Options Supplement

Investment Options Supplement
30 September 2026
Issued by i-Select Limited

This Investment Options Supplement is provided under the terms of an exemption that the i-Select Superannuation Scheme has from some of the provisions of the Financial Markets Conduct Act 2013 and Financial Markets Conduct Regulations 2014. You can find a copy of the exemption notice on FMA's website at www.fma.govt.nz/compliance/exemptions.

iSelect
SUPERANNUATION

Description of your investment options

A description of the investment options that are currently available to Members, and the estimated annual fund charges for those investment options, is set out in the table below.

Annual Fund Charges

Manager's fee	0.50%
Scheme expenses*	0.06%
Total	0.56%

*Scheme expenses include estimates of the Scheme's accountancy, audit and Supervisor's fees. These are re-estimated each year for the following year and may, therefore, change without notice.

Please note that:

- any changes to the investment options will only be updated quarterly; and
- any changes to the estimated total annual fund charges, other charges and any individual action fees in respect of each investment option will only be updated annually using information reasonably available to the manager as at the reporting date.
- Members should independently review and investigate all fees and charges applicable to their chosen investment options within their Personal Plan. None of i-Select's disclosure documents have been audited, and reliance should not be placed solely on the information provided with respect to underlying investment options which are subject to change.
- further possible investment options are available for selection by a Member after consultation with their Adviser.

Fees charged

Other charges

Bank fees may apply where the Manager has to move member funds between accounts, such as from the Scheme's trust account to the Custodian.

Adviser Fees

As a member of the i-Select Superannuation Scheme you must appoint an Adviser to assist you in making decisions on the investments to be included in your Personal Plan. The service that the Adviser provides will be subject to a fee that is negotiated with you at the time of joining the Scheme and is deducted from your investment amount.

Brokerage Fees

Brokerage fees may apply to some types of investments and will be deducted from your investment amount.

There are different brokerage options available, and the fees will vary depending on the platform, broker and exchange used.

Your adviser can inform you of the brokerage charges relevant to your portfolio.

Example of how fees apply to an investor

John Smith invests \$10,000 in a number of investment options. He is charged brokerage when his funds are invested of \$40.00 (0.40% of \$10,000).

This brings the starting value of his investment to \$9,960.00.

He is also charged the management fee, which works out to \$49.80 (0.50% of \$9,960.00), and Scheme expenses of \$5.98 (0.06% of \$9,960.00). These fees might be more or less if his account balance has increased or decreased over the year and are dependent on the type of investments he has selected.

He is also charged an ongoing Adviser fee, which works out to \$99.60 (1% of \$9,960.00). These fees might be more or less if his account balance has increased or decreased over the year and are dependent on the type of investments he has selected.

Over the next year John pays other charges of \$15 being a bank charge to move funds.

Estimated total fees for the first year:

Brokerage:	\$40.00
Management fee:	\$49.80
Scheme expenses:	\$5.98
Adviser fee:	\$99.60
Other charges:	\$15.00
Total:	\$210.38

If John's investment options include any funds, those funds may be subject additional fees (including performance fees) and expenses.

This example may not be representative of the actual fees you may be charged and reflects a mix of investment options at the maximum management fee rate.

Understanding the risk indicator

A risk indicator in relation to an investor's investment portfolio will be provided by an investor's adviser prior to any investments being made on behalf of the investor.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down (volatility). A higher risk generally means there is the potential for higher returns over time, but with the risk of higher losses, and there are likely to be more ups and downs along the way.

To help you clarify your own attitude to risk, you must seek financial advice from an adviser. In addition, you may work out your risk profile at <https://www.sorted.org.nz/tools/investor-kickstarter>.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

The risk indicator is not a guarantee of a Personal Plan's future performance. The risk indicator is based on the returns data for a five year time period. While risk indicators are usually relatively stable, they do shift from time to time.

Example risk indicator

See the **product disclosure statement (PDS)** for more information about the risks associated with investing in an investment portfolio.

Exit Fees

An Exit Fee applies if funds in excess of 30% of the original contribution amounts are taken as lump sum benefits within a two year period (the amounts caught by the Exit Charge are called "Relevant Contributions" here). The Exit Fee is 3% if Relevant Contributions are taken as lump sum benefits within 12 months, and 1.5% if taken as lump sum benefits between 12 and 24 months.

Part of any Exit Fee will be paid to your Adviser unless they elect to waive it. Where your Adviser elects to waive the payment, the Exit Fee will be reduced to 2.5% (within 12 months) and 1.25% (12 to 24 months) respectively.

Exit fees do not apply to the growth on Relevant Contributions, or Income for Life Payments on Relevant Contributions.

Oceania Healthcare Limited 01/07/2032 5.55%	0.00%	0.00%	0.56%	https://www.oceaniahealthcare.co.nz/	Oceania operates in the New Zealand residential aged care and retirement village sectors, offering residents villas and apartments within its retirement villages, and also providing a full range of residential aged care services (including rest home, hospital and dementia level care) at its aged care facilities. Oceania is currently New Zealand's third largest provider of residential aged care, and New Zealand's sixth largest retirement village business.
Octagon Australian Equities Fund (PIE)	0.00%	0.00%	1.71%	https://www.octagonasset.co.nz/our-funds/australian-equities-fund/	Invests mostly in Australian shares, and can invest in New Zealand listed shares, where the company has meaningful operations in Australia. Aims to achieve long-term returns (before fees, taxes and other expenses) greater than the S&P/ ASX 200 Accumulation Index, 50% hedged to the New Zealand dollar. These investments typically have high levels of movement up and down in value.
Octagon Balanced Fund (PIE)	0.00%	0.00%	1.71%	https://www.octagonasset.co.nz/	Invests across multiple asset classes and aims to achieve long-term returns (before fees, taxes and other expenses) greater than a composite benchmark relating to the fund's target investment mix. Investors can expect moderate to high levels of movement up and down in value and to receive longer-term returns that are lower than those of the Growth Fund (but with less risk).
Octagon Enhanced Cash Fund	0.00%	0.00%	0.91%	https://www.octagonasset.co.nz/our-funds/enhanced-cash-fund/	Invests in cash, cash equivalents and short-term New Zealand debt security assets. Aims to achieve returns (before fees, taxes and other expenses) greater than the Official Cash Rate (OCR) over a rolling 12 month period. These investments typically have very low movement up and down in value.
Octagon Growth Fund (PIE)	0.00%	0.00%	1.81%	https://www.octagonasset.co.nz/our-funds/growth-fund/	Invests across multiple asset classes, selecting a lesser exposure to cash and fixed interest investments and a greater exposure to equity and property investments and aims to achieve long-term returns (before fees, taxes and other expenses) greater than a composite benchmark relating to the fund's target investment mix.
Octagon New Zealand Equities Fund (PIE)	0.00%	0.00%	1.71%	https://www.octagonasset.co.nz/	Invests mostly in New Zealand shares, and can invest in Australian listed shares, where the company has meaningful operations in New Zealand. Aims to achieve long-term returns (before fees, taxes and other expenses) greater than the S&P/NZX50 Gross with Imputation Index. These investments typically have high levels of movement up and down in value.

Proshares Ultra QQQ	0.00%	0.00%	1.51%	https://www.proshares.com/our-etfs/leveraged-and-inverse/qld	This ProShares ETF seeks daily investment results that correspond, before fees and expenses, to 2x the daily performance of its underlying benchmark (the "Daily Target"). While the Fund has a daily investment objective, you may hold Fund shares for longer than one day if you believe it is consistent with your goals and risk tolerance. For any holding period other than a day, your return may be higher or lower than the Daily Target. These differences may be significant. Smaller index gains/losses and higher index volatility contribute to returns worse than the Daily Target. Larger index gains/losses and lower index volatility contribute to returns better than the Daily Target.
Proshares Ultra SmallCap 600	0.00%	0.00%	1.51%	https://www.proshares.com/our-etfs/leveraged-and-inverse/saa	This ProShares ETF seeks daily investment results that correspond, before fees and expenses, to 2x the daily performance of its underlying benchmark (the "Daily Target"). While the Fund has a daily investment objective, you may hold Fund shares for longer than one day if you believe it is consistent with your goals and risk tolerance. For any holding period other than a day, your return may be higher or lower than the Daily Target. These differences may be significant. Smaller index gains/losses and higher index volatility contribute to returns worse than the Daily Target. Larger index gains/losses and lower index volatility contribute to returns better than the Daily Target.
Prudential plc	0.00%	0.00%	0.56%	https://www.prudential.co.uk/	While the Fund has a daily investment objective, you may hold Fund shares for longer than one day if you believe it is consistent with your goals and risk tolerance. For any holding period other than a day, your return may be higher or lower than the Daily Target. These differences may be significant. Smaller index gains/losses and higher index volatility contribute to returns worse than the Daily Target. Larger index gains/losses and lower index volatility contribute to returns better than the Daily Target.
Purpose Bitcoin ETF - NZD (BTCC.CN) (Cash Dist)	0.00%	0.00%	1.56%	https://www.bitcoin.org/	Purpose Bitcoin ETF is the first ETF in the world to be physically backed by Bitcoin and not derivatives, making it similar to gold and silver ETFs already trading on the TSX. TransMedics Group Inc. - USD (TMDX) (Cash Dist)	0.00%	0.00%	0.56%	https://www.transmedics.com/	TransMedics is a commercial-stage medical technology company transforming organ transplant therapy for end-stage organ failure patients across multiple disease states. We developed the Organ Care System, or the OCS, to replace a decades-old standard of care that we believe is significantly limiting access to life-saving transplant therapy for hundreds of thousands of patients worldwide. Our innovative OCS technology replicates many aspects of the organ's natural living and functioning environment outside of the human body. As such, the OCS represents a paradigm shift that transforms organ preservation for transplantation from a static state to a dynamic environment that enables new capabilities, including organ optimization and assessment.
