Gardens and Wellbeing
Maggie's
Maggie's is a UK-wide charity providing practical and psychological support to people living with cancer and their families. Maggie's centres and their gardens are designed to aid both physical and mental wellbeing, with some centres running gardening therapy groups. In all seasons and weathers, each garden must provide visitors with privacy, peace and space for contemplation. Being able to see the moving, changing landscape outside can provide comfort during moments of turmoil and distress, with the garden acting as a reminder that we are all part of a living world.
