Computer Requirement & Software

Central to the online Certificate III in Screen and Media course is a reliable computer with robust specifications able to edit high quality video productions. Your computer must be powerful enough to run our core programs which are essential to successfully completing the course.

PC Specs: i5 - i9 CPU / 16Gb of RAM / 4Gb GRAPHICS MEMORY (or better).

MAC Specs: Quad Core i7/Apple Silicon M1/M2 etc. / 8Gb of RAM / 4Gb GRAPHICS - (or better).

Storage: It is recommended you have ample storage space on your computer hard drive (more is better). We also recommend an external hard drive for backups of at least 1TB.

Software:

You will need to download and install the following software:

'DaVinci Resolve' (NOT davinci Resolve Studio) - the free version of the software.

Affinity Studio (via the CANVA website). - Sign up with an email to download.

Video & Audio Equipment

For this course you need a 'production kit' which includes the following:

Camera:

A **Digital SLR** or **mirrorless** camera capable of shooting (a minimum) of **1080p footage**, with **full manual control of ISO, Shutter speed, Aperture, Focus** and (preferably) has interchangeable lenses.

This can be purchased new or second hand (recommended). These are the minimum specs for successfully completed the requirements of the Certificate III in Screen and Media.

If you already own a camera and are not sure if it is suitable, please contact us.

Lens Filter: Variable ND Filter to suit your camera lens/lenses. If you are unsure of which brand or size to buy, please contact us.

Lapel Microphone: This microphone will be needed to record dialogue and audio during your course. It can either be connected to your camera or mobile phone to record sound.

If you are unsure of which brand or model to buy, please contact us.

Tripod:

You will need a tripod that has a **Fluid Video Head** for video production. This can be purchased new or second hand (recommended). If you are unsure as to which model or unit to buy, please contact us and we can advise on the best choice.
