

Profitability in Hygiene Through GBT

Guided Biofilm Therapy “GBT” provides a Modern, Safe, Painless and Clinician Friendly way to Hygiene Re-Care, bringing the word PROFIT back into the dental hygiene department of the practice.

This contemporary approach begins with sub- and supragingival biofilm removal using the AirFlow Master followed by the minimally invasive removal of mineralized build-up with PIEZON® NO PAIN. This approach has many additional benefits, including **short treatment times** and maximum comfort for both the hygienist and the patient. GBT is minimally invasive. Polishing paste and rubber cups are no longer necessary.

With GBT, we can finally carry out professional biofilm management effectively, gently, safely, quickly, comfortably and without pain ... and PROFITABLE as hygiene re-care should be.

Program Presenter
Lynn Atkinson, RDH

Lynn Atkinson RDH has been a Registered Dental Hygienist for over 30 years. Her passion for utilizing technology while delivering the highest quality of patient care keeps her practicing four days a week in Mission Viejo, Ca. Lynn lectures and provides clinical, hands-on training to dental professionals on successfully incorporating Guided Biofilm Therapy using the Airflow Prophylaxis Master by EMS into their practice. Lynn is a key opinion leader for several dental manufacturers and companies as well as a speaker and trainer for US EMS Guided Biofilm Therapy. She serves on the Board of Directors at the Academy of Laser Dentistry as Auxiliary Chair, a member of the ALD Speakers Bureau, Education, Conference, and Testing Committees. Lynn is the honored recipient of the ALD 2022 Leon Goldman Clinical Excellence Award.
