

# GBT

## Guided Biofilm Therapy

**Guided Biofilm Therapy "GBT" provides a Modern, Safe, Painless and Clinician Friendly way to Hygiene Re-Care, bringing the word PROFIT back into the dental hygiene department of the practice.**

This contemporary approach begins with sub- and supragingival biofilm removal using the AirFlow Master followed by the minimally invasive removal of mineralized build-up with PIEZON® NO PAIN. This approach has many additional benefits, including **short treatment times** and maximum comfort for both the hygienist and the patient. GBT is minimally invasive. Polishing paste and rubber cups are no longer necessary.

**With GBT, we can finally carry out professional biofilm management effectively, gently, safely, quickly, comfortably and without pain ... and PROFITABLE as hygiene re-care should be.**

# Profitability in Hygiene

**Program Presenter**  
Lynn Atkinson, RDH

Doctors, you are in for a business treat this evening. Our Profitability in Hygiene through GBT program will kick-off with an explanation of being profitable in hygiene, by the dental business mind of Gene St. Louis. Gene is a master consultant, with a focused eye on the critical importance of being profitable in hygiene ... which is possible.

Come join us, with your hygiene team, for this evening of clinical & profitable change.

Lynn Atkinson RDH has been a Registered Dental Hygienist for over 30 years. Her passion for utilizing technology while delivering the highest quality of patient care keeps her practicing four days a week in Mission Viejo, Ca. Lynn lectures and provides clinical, hands-on training to dental professionals on successfully incorporating Guided Biofilm Therapy using the Airflow Prophylaxis Master by EMS into their practice. Lynn is a key opinion leader for several dental manufacturers and companies as well as a speaker and trainer for US EMS Guided Biofilm Therapy. She serves on the Board of Directors at the Academy of Laser Dentistry as Auxiliary Chair, a member of the ALD Speakers Bureau, Education, Conference, and Testing Committees. Lynn is the honored recipient of the ALD 2022 Leon Goldman Clinical Excellence Award.
