Assessing Complexity

And delivering definitive diagnosis

Tuesday, January 23rd
6pm
Patterson Dental
4030 Sorrento Valley Blvd
San Diego, CA 92121

2 CE units

In this course, Dr. Thomson will share her evolution in using CBCT within her endodontic practice and will review specific cases that illustrate how she uses the technology today to obtain better outcomes. Dr. Thomson will review the elements of diagnosis and emergency management to effectively manage endodontic emergencies and cases.

Learning Objectives:

- Understand how CBCT can help in the assessment of endodontic case complexity.
- For GP's doing endo, recognize signs of when to treat and when to refer.
- Two reasons why CBCT is beneficial prior to crown prep.
- Understand when to take a CBCT, and what verbiage to use with patients.
- Understand how to read 3D scans for endodontic diagnosis.
- Review the fundamentals of endodontic diagnoses and management.
- See why CBCT is essential to identify, diagnose and treat various resorption cases.

KATHERINE A. THOMSON, D.D.S., MS

Katherine Thomson DDS is a highly accomplished dentist with an extensive educational background, including a BS and MS in Chemistry from UCSD, a DDS degree from UCLA, and a two-year Endodontics Residency at USC. With over 20 years of experience, she has been providing comprehensive dental care to the San Diego community. Her expertise spans both general dentistry and specialized endodontics, allowing her to offer a unique perspective and valuable diagnostic skills to her patients and referrals.

JENNY HUANG, D.D.S.

Jenny Huang DDS, born and raised in San Diego, graduated with honors from the University of San Diego with a BS degree in Biochemistry and Cell Biology. She obtained her DDS degree from the University of California, San Francisco, graduating with honors.

Dr Huang has received the American College of Dentists Outstanding Achievement Award and is a University of California Regent's Scholar. She furthered her training with a one-year General Practice Residency at the VA San Diego in La Jolla and completed her post-graduate endodontic residency at Texas A&M College of Dentistry.
