KURARAY AMERICA, INC.

COURSE DESCRIPTION:

Say aloha to the next generation of restorative dentistry! This course brings together the latest innovations in chairside workflows, AI-powered design, and advanced zirconia materials. From the revolutionary speed of AI-integrated CEREC software, to the game-changing zirconia implant block that just entered the market, we will explore how these technologies are transforming clinical outcomes and patient satisfaction.

Whether you're a tech-savvy early adopter or just dipping your toes into digital dentistry, this course will leave you inspired, informed, and ready to shred the wave of innovation. Get excited to learn from Dr. Buttermann as he shares his experience as an alpha tester for these technologies. Chee hoo!

OBJECTIVES:

- Learn clinical applications and benefits of the new zirconia implant block to fabricate screw-retained and perfectly matched crown and abutments for supra gingival margins
- Streamline your workflows with AI in CAD/CAM software with super-fast material design and fabrication—cutting chairside time to just 20 minutes
- Practical tips and troubleshooting strategies from a technology alpha-tester
