

GROWTH OF THE MODERN CAD/CAM PRACTICE: BALANCING CHAIRSIDE DENTISTRY AND ADVANCED MILLING CAPABILITIES

3CE

PROVIDED BY
PATTERSON EDU

COURSE DESCRIPTION:

Growing a dental practice is never easy—but with the right mix of passion, innovation, and teamwork, growth becomes not only possible but sustainable. Join Dr. Apekian as she shares her journey from mastering chairside workflows to integrating advanced 5-axis milling technology for complex, high-precision restorations. She'll discuss how digital integration transformed her daily practice with presentation of key metrics—improving efficiency, broadening treatment capabilities, and enhancing collaboration between the clinical and technical sides of dentistry. Attendees will gain insights into the practical steps, decision-making process, and mindset that allow a practice to evolve from single-unit production to a full in-house restorative ecosystem.

OBJECTIVES:

- Understand how to introduce CAD/CAM milling into daily restorative workflows
- Discuss key metrics to determine when your practice is ready to transition to 5-axis capabilities
- Explore daily applications of 5-axis milling and strategies for integrating an in-house laboratory

EVENT INFORMATION:

Location: Patterson Dental San Diego
4030 Sorrento Valley Blvd. San Diego, CA

Course Date: 10/29/2026

Course Time: 6 pm - 9 pm PST

Maximum Attendees: max 75

Course Fee: None

Event Contact: Remo Sagastume | Remo@cadcamdentists.com | 858-922-3078

Intended Audience: Dentists and Dental Assistants

Cancellation Policy: 3 weeks prior to event date

DR. JENNY APEKIAN

Dr. Jenny Apekian is a proponent of utilizing the latest CAD/CAM, 3D imaging, 3D printing and treatment delivery systems and technologies in dentistry to improve the patient experience. As an accomplished artist, she utilizes those same skills in finalizing restorations for full-arch or full-mouth rehabilitation cases in her Sacramento practice. A key opinion leader for various DENTSPLY Sirona technologies, Dr. Apekian serves as a mentor and trainer for CEREC CAD/CAM technology throughout the Sacramento region. She also speaks nationwide on how to maximize efficiency through office design and organizational workflows. She recently accepted the Smart Integration Award honoring innovative women in digital dentistry.
