

Join Steve Nelson of the Piano Guys at Pybus Point Lodge (Subject To Change)

Day 0 – August 26, 2026 (Pre-Trip)

Arrive in Juneau at your leisure. Explore historic downtown, enjoy the beautiful upside-down gardens or take a small hike a glacier and waterfall overlook. Hotel and dinner are on your own.

Day 1 – August 27, 2026

After a quick group meeting, enjoy breathtaking views during a 45 minute “flightseeing” float plane ride down Alaska’s famous Inside Passage as we shuttle you to a remote Adventure Lodge in a secluded bay on Admiralty Island National Monument. After a healthy breakfast and fun orientation at the lodge, one of our seasoned boat captains will take you out for a day of fishing, wildlife viewing, and a tour of the area. After you return to the docks, our captains will clean, freeze and package your fish while you enjoy our kayaks, hot tubs, amazing decks, before dinner.

Day 2 – August 28, 2026

An Alaskan adventure would never be complete without an up-close glacier experience. Today we will adventure up to the Sawyer Glaciers in the beautiful Trace Arm Fjord. With floating pieces of ice ranging from small ice-cubes to large three-story buildings you will see the power of nature first-hand. Wales, harbor seals, orcas and mountain goats are often the highlights of the trip, in addition to catching a few more halibut or rock fish on the way back to the lodge for another amazing evening, including an **exclusive concert by Steve Nelson of the Piano Guys!**

Day 3 – August 29, 2026

It is said that everything is bigger in Alaska, and when it comes to waterfalls that is certainly true. After fishing or whale watching in the morning, your captain will take you to one of the best waterfalls in Alaska. Known as Red Bluff Fall’s, this 600’ waterfall is also only accessible by boat or plane. Or choose a ½ day kayak trip and rainforest hike for a more close-up Alaskan Experience. After dinner, join us at the firepit for an **informal Q&A with Steve Nelson** – with S’mores of course.

Day 4 – August 30, 2026

At this point you have worked hard, and played harder, and deserve a little relaxation. After another short fishing adventure for halibut or salmon, our boats will head toward one of the real hidden gems in the area. The Baranof Warm Springs are a series of natural springs situated next to raging river. With pools reaching as high as 120 degrees (and many much cooler), it’s a perfect place to relax and think about your amazing time in Alaska. A short walk from the warm springs there is also a beautiful mountain lake which is great for photos and reflection. Evening activities include an awards presentation and video preview of a highlight video of your trip that is yours to keep.

Day 5 – August 31, 2026

After one last world-class breakfast, lodge staff will present you with your box of frozen fish from your week of fishing (most guests go home with 30-45 lbs of fish). Handshakes, hugs and big smiles are exchanged on the dock as you load the floatplane for one last amazing flight-seeing trip back to Juneau. You can book a flight home after 1:00 pm.
