

ASSEMBLY INSTRUCTIONS

CONTENTS

Doumia

(x1) backplate

(x2) wall plug

(x2) screw

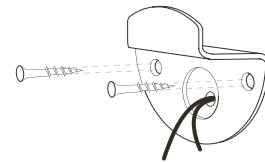

STEPS

01. Switch off the power.

02. Position the backplate by threading the electrical wires through the central hole.

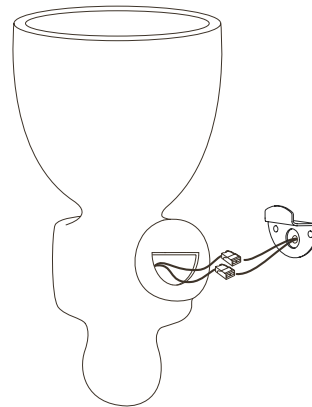

03. Ensure that the holes are aligned horizontally.

04. Drill holes, insert the wall plugs and **screw on** the backplate.

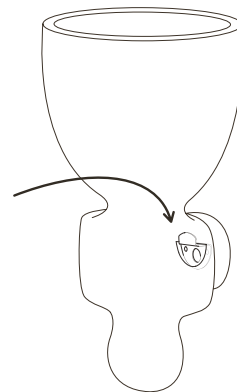

05. Connect the wago connectors to the electrical wires.

06. Tuck the wires and the wago connectors **into the wall light**.

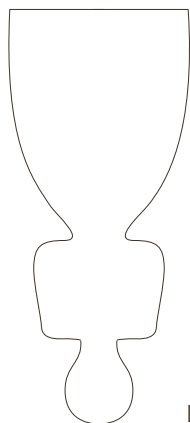

07. Position the wall light.

08. Switch the power back on.
