Design features

U-Desk is designed to house all your AV equipment in a subtle and stylish way. Our approach to cable management and storage options is considered and focussed on a **hassle-free** user experience.

1. Adjustable VESA mounting for a range of screen sizes
2. Internal storage for any AV equipment and cable management
3. Easily adjustable universal camera mount for above or below the screen

4. Four options of screen height available
5. Tidy cable management hidden away
6. Single tool assembly for quick installation

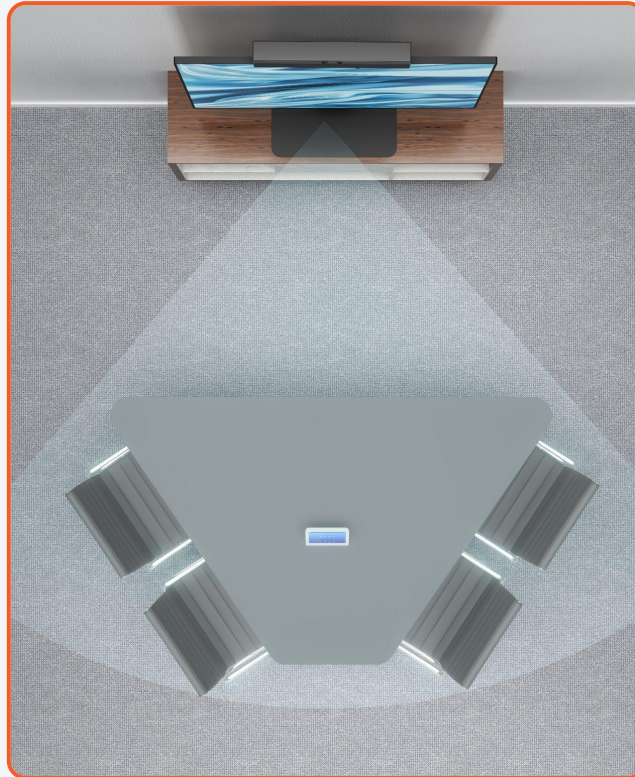

Room sizes

U-Desk is designed but not limited to be used in **huddle spaces and small sized** rooms.

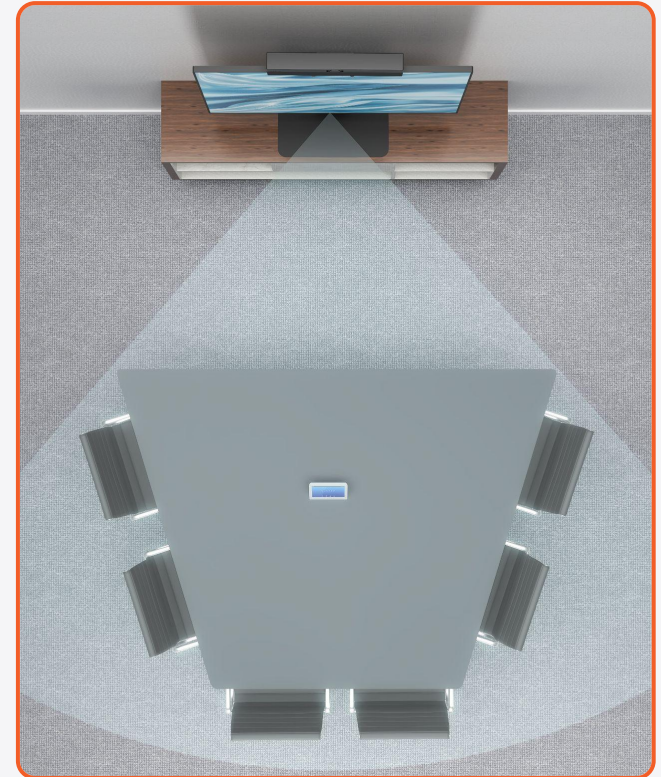

2 seater huddle room

Great for quick, focused conversations. Ideal for one-on-one meetings or small discussions, these spaces offer privacy and a distraction-free environment.

4 seater small room

Perfect for small meetings and discussions, offering clear communication and a comfortable setup. Ideal for productive brainstorming sessions.

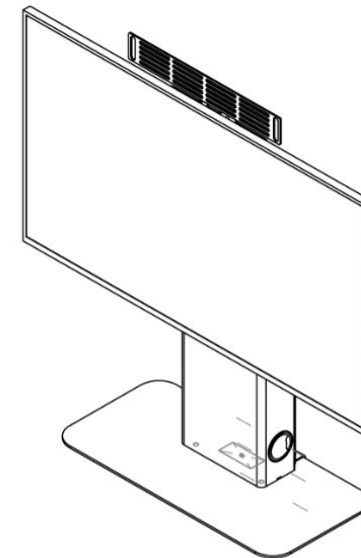

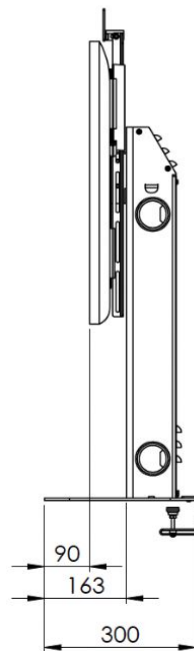

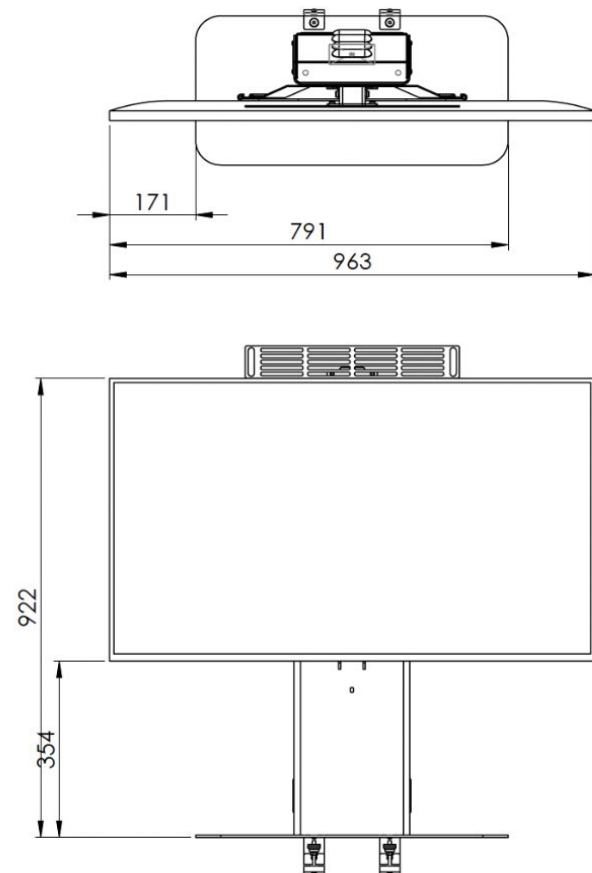

6 seater small room

6 seater rooms designed for collaboration with cutting-edge tech and Microsoft Front Row. Experience immersive video conferencing where every participant stays engaged, anywhere.
