

Wire Lights

Wire Lights
by Deadgood Studio

WHAT

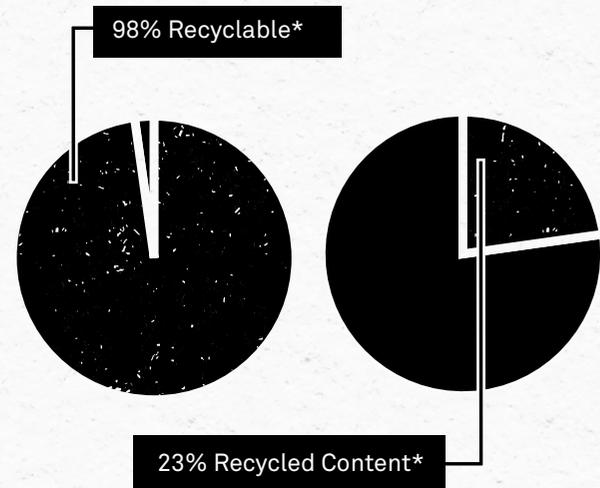

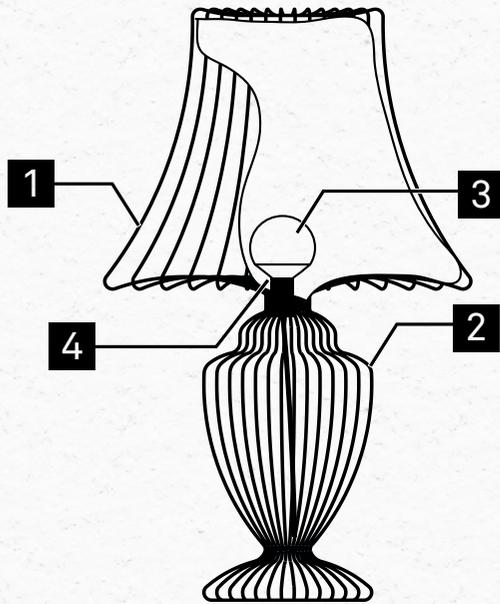

A decorative lighting product is both fun and familiar

WHY

Long lasting, efficient and sustainable lighting solutions that are playful to create emotional connection.

HOW

Taking its cue from the iconic form of an urn lamp for emotional durability. Combines traditional styling with a precise and technically efficient production method for a fully disassemblable design.

Mild Steel	25%	100%	WL1S 3.6kg WL1M 7.7kg WL1L 11.8kg
Get Wasted Powder Coat	100%	0%	WL2S 1.9kg WL2M 5kg WL2L 8.5kg
Polypropylene	0%	100%	
Stainless Steel	0%	100%	

KEY FEATURES

- 1 30% Recycled aluminium
- 2 Recycled Powder Coat**
- 3 Energy Efficient Bulb
- 4 Fully disassemblable

PRODUCTION

Peterborough UK, & Turin, Italy

GOOD TO KNOW

- *Based on Large Lamp model.
- ** Other RALs available.

These attributes can help you to achieve criteria towards LEED, BREEAM, Ska and WELL building certifications.

Our aim is to develop a sustainable business that meets consumer needs without compromising our future welfare. Our products can contribute to the sustainability goals of a commercial project and we are proud to be able to offer FSC® certified products and use recycled metals. Where sustainable sources are quoted, and a chain of custody is required, this must be indicated on the purchase order. A chain of custody requested after an order has been placed will not be possible to recover. Figures stated in the summaries may vary based on model and options selected. Recycled calculations are taken from supplier information and industry data, as such material variables are likely to affect the figures which may result in changes to these percentages. This document is subject to change without notice.
