

Technical Buyer (m/f/d)

Our client is an **international technology company** that develops and manufactures **high-precision components and systems** for safety-critical applications worldwide. The company stands for technological excellence and a corporate culture in which innovation, accountability and teamwork are actively lived.

We offer an analytical, performance-driven professional the opportunity to actively shape the business as a Technical Buyer / Project Buyer / Strategic Buyer (m/f/d) and to have a direct impact on quality, cost and supply reliability.

Your Responsibilities

- Implement the **supply chain strategy based on key performance indicators** (e.g. delivery performance, cost, quality, inventory levels) for your **purchasing category** and support its further development.
- **Manage and develop strategic suppliers**, build strong partnerships, negotiate contracts and supplier agreements, and take responsibility for **supplier performance management**.
- Obtain **competitive quotations**, perform **cost and TCO analyses**, and award contracts to established key suppliers based on defined category strategies.
- **Manage critical supplier situations**, ensure material availability and optimise inventory levels.
- **Drive operational excellence initiatives** and implement **cost and productivity improvement programmes** in close collaboration with global teams.
- Support **in-sourcing and out-sourcing initiatives** working across interfaces with Operations, Engineering and Quality.

Your Profile

- You have at least **three years of experience** in strategic, technical or project purchasing, ideally **sourcing engineered / drawing-based parts** in a quality-critical environment.
- You demonstrate **strong negotiation skills** – data-driven, assertive and at the same time partnership-oriented.
- You like to work in a **cost- and KPI-driven** environment and apply PPV / PPI, TCO and material cost optimisation confidently.
- Your communication in **English is business-fluent**.

We Offer

- ... a challenging and impactful role with direct influence on product cost and quality.
- ... a modern, performance-oriented working environment with a strong commitment to equal opportunities.
