Discover Formetiq®

—
Form.

—
Function.

—
Intelligent design.

Our innovative range of contemporary workspace furniture is designed to efficiently enable modern working environment and practice.

Everything we create aligns with our three core beliefs: it must look beautiful (form), work well for you (function) and be made in the most resource-effective way (intelligent design).

Our new integrated furniture range, complete with matching bench desking, storage, planters and acoustic screens, has been designed to be simple and straightforward for everyone involved, from specifier to user. We made sure to put extra care into every detail to try and make your job not just easy; but enjoyable.

Comfortable ergonomic seating is essential for any workplace as the typical office worker spends anywhere between 20 and 45 hours a week sat at their desk. Our Formetiq® seating has been engineered to be comfortable and durable offering incredible value for money for employers worldwide.

At Formetiq® we believe days spent in a well-designed workspace can be enjoyable and an improved working environment invariably brings increased productivity.

SYSTM[®]

Modular bench desking

Designed by Giovanni Bellini & Arthur Pigou, the modular SYSTM bench desking range with storage, planters and acoustic screens has been created for designers and architects who require a flexible but robust desking solution.

SYSTM offers a wide choice of depths and widths, available with straight back or scoop for cable management. Bespoke cutouts for in-surface power can be provided. Additionally end of bench desks are available to fit exactly across the bench width.

Choose from 12 MFC finishes in a single price band, with plywood effect edge available for any coloured MFC. Alternatively you can mix and match edge finishes at no extra cost. Robust 50mm frames create a 10mm shadow gap contributing to the contemporary look.

SYSTM®

Acoustic divider screens

Upholstered in a wide range of fabrics from popular manufacturers, SYSTM fabric screens are manufactured in the UK, upholstered by our in-house team.

Choose square or rounded corners. Different fabrics can be specified for each side, providing greater creative design opportunities.

Brackets are supplied to fit spine and return screens to desks and back-to-back benches and match the desk frame. Screen heights are designed to align between SYSTM fixed height desks and Alto height adjustable desks.

SYSTM®

Desk height storage

SYSTM desk height storage works seamlessly alongside the modular desking and tables. Storage widths match depths for both in-line and back-to-back benches.

Choose from 12 MFC finishes in a single price band, and mix and match finishes between carcass and doors or shelves. Doors are hinged or sliding with a lockable option. A wide choice of handles, including solid oak and leather options allow designers to include an accent finish.

Planters match every width of storage, integrating seamlessly with vertical grain matching the carcass beneath. Include our robust fibreglass liners for a complete waterproof solution or alternatively choose from 3 styles of artificial planting.

BOOKCASE / CABINET SIZES	PLANTER SIZES	ARTIFICIAL PLANTING	FINISH - COLOURS	FINISH - PATTERNS	HANDLE STYLES

SYSTM®

Cabinets / bookcases / hybrid with planters

SYSTM storage works seamlessly alongside desking and tables. Cabinets and bookcases are available in 2 widths and 4 different heights with hybrid units too. Depths and heights match lockers so they can be easily integrated together.

Mix and match 12 MFC finishes between carcass, planter, doors or shelves. 3 base options are available including panels and plinths. Cabinet doors offer a lockable option. Cupboards also include an optional wardrobe hanging rail option.

Planters match storage widths and depths, with a choice of robust fibreglass liners or 3 styles of artificial planting.

**Made entirely from
environmentally sustainable
polypropylene**

Palermo chairs are manufactured from a mixture of recycled materials: approx. 50% regenerated industrial polymers and 50% recycled consumer waste such as packaging, textiles and toys. Once these materials are processed the resulting polypropylene is reinforced with glass fibre.

Palermo

Stackable meeting / canteen chairs

Ideal for breakout areas and canteens the Palermo chair's contemporary moulded shape and subtle muted colours bring vitality to any workspace.

Choose the standard form or with integrated armrests, both stackable up to 4 chairs high. The solid plastic finish makes them easy to keep clean.

Upholstery

Formetiq seating and acoustic screens are manufactured by our expert team at our Suffolk HQ. Each chair is lovingly built by hand using high quality Italian componentry and our carefully crafted sewing and upholstery process. Chairs and screens come with our outstanding 10 year manufacturer warranty.

We now offer a huge range of fabric choices with multiple colours and materials, from respected manufacturers across Europe.

CAMIRA®

Camira, founded in 1974 make more than 8 million metres of fabric a year. They design and make some of the world's most adventurous and environmentally

sensitive fabrics with expertise covering wool spinning and polypropylene yarn manufacturing, yarn dyeing, and weaving on dobby.

GABRIEL®

Since the first spinning machines were set in motion in 1851, Gabriel has evolved into a global fabric company, providing a full palette of solutions and services for the international furniture industry, including fabrics, acoustic comfort, knitting and embellishment services.

From the first woollen cloth in 1851 to their high-performance furniture fabrics today, their dedication to quality, aesthetics, and function has remained the same.

SAMPLES

Place your purchase order in the normal fashion, clearly noting item(s) are for use as samples. If returned in a saleable condition within 30 days, these will be credited.

CUSTOMER'S OWN MATERIAL

Customer's own materials or unlisted fabrics must be approved and quoted by Arrow Group before placing orders. We are unable to guarantee any product meeting fire regulations or standards which is supplied in a COM.

Form | Function | Intelligent design

Every piece of furniture our designers create aligns with our three core beliefs: it must look beautiful, work well for you and be made in the most resource-effective way.

At Formetiq® we believe days spent in a well-designed workspace can be enjoyable and an improved working environment invariably brings increased productivity.
