

Protect uptime, assets, and grid continuity

DSPA Aerosol Fire
Suppression for Substations

Many substations need better protection, but have little room for major upgrades

DSPA Aerosol Fire Suppression fits **where traditional systems cannot.**

Compact and Efficient Protection with DSPA generators

- Pressure-free
- No pipework
- Retrofit-friendly
- Fast suppression
- Direct enclosure
- Low maintenance
- 15-year lifespan
- Ideal for electrical environments
- Environmentally responsible
