---

### Objective

Highly motivated high school senior with a passion for environmental science and community service. Seeking admission to a university that will provide opportunities to develop innovative solutions to environmental challenges and contribute to the community through leadership and creativity.

---

### Academic Background

- **High School:** Lincoln High School, Chicago, IL
    - **Graduation Date:** June 2024
    - **GPA:** 4.0/4.0
    - **Advanced Coursework:** AP Environmental Science, AP Biology, Honors Chemistry
  - **Academic Projects:**
    - **Climate Action Proposal:** Collaborated with peers to draft a climate action plan for the city of Chicago, presented to the city council.
    - **Water Purification Experiment:** Designed and tested natural filtration methods to improve water quality in local community gardens.
- 

### Professional Experience

- **Chicago Botanic Garden** (Intern), Glencoe, IL  
*June 2023 – August 2023*
    - Assisted in data collection on local plant species for conservation research.
    - Led educational tours, explaining native plant species and conservation importance.
    - Created a digital infographic on local ecosystems for the garden's educational center.
- 

### Leadership and Activities

# ESSAYPRO.COM

- **Environmental Club, Lincoln High School**
  - **Position:** President, *September 2022 – Present*
    - Organized "Green Week" events, including recycling drives and educational seminars, increasing participation by 40%.
    - Led a project to create a pollinator garden involving over 30 students, resulting in a thriving habitat for bees and butterflies.
