LET'S CREATE GAMES TOGETHER

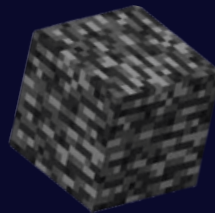

Roblox is a global platform where millions of people gather together every day to imagine, create, and share experiences with each other in immersive, user-generated 3D worlds.

CREATE NEW WORLDS

LET'S CREATE GAMES TOGETHER

MINECRAFT

Minecraft is the most popular game. The game is made up of blocks, creatures, and communities. Blocks can be used to reshape the world or build fantastical creations.

CREATE NEW WORLDS

LET'S CREATE GAMES TOGETHER

Fortnite is a top competitive game. Create games and experiences to publish to millions of Fortnite players. Build the future of Fortnite, today.

OUR VISION

Problem

Users lack a centralized platform for acquiring knowledge on crafting and developing within the most popular games.

Solution

A multi-game and cross-device platform that enables fast user learning for the creation of new worlds.

CREATE NEW WORLDS

GAME CODING

01

By 2027, the number of users in the Video Games market is expected to reach 1,462bn users.

02

The user penetration rate is predicted to increase from 15,7% in 2023 to 18.1% by 2027.

CREATE NEW WORLDS

AI + GAMING TUTORS

Your own AI tutor will help you improve and optimise your gaming coding. Start with simple steps, master them and progress with insightful tutoring.

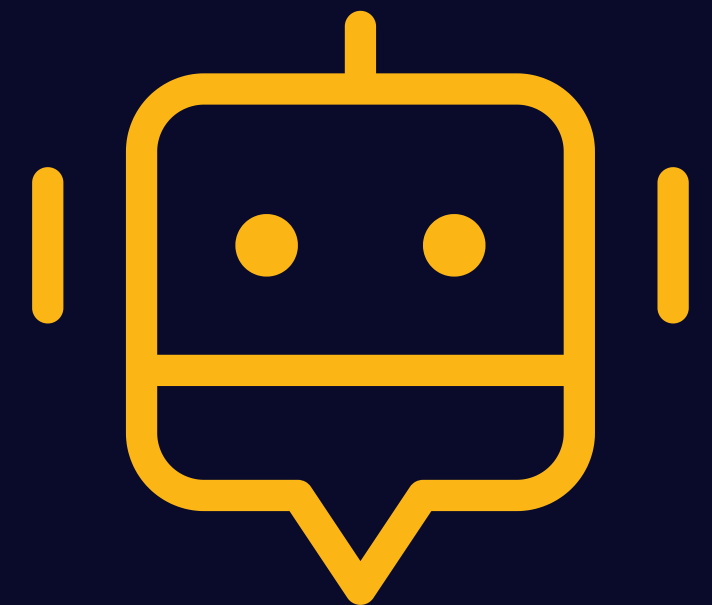

Artificial Intelligence

Learn with our AI tutors to master coding and learn how to create new worlds.

Settings

Choose your proficiency level and improve to become a master crafter.

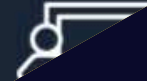

Create

Jump straight in! Code and create games.

Tutorials

Learn from the best. Experts will guide you.

Webinars

Connect with experts.

CREATE NEW WORLDS

TURNKEY PLATFORM

Our expert tutors and AI are trained in game coding ready to take you from beginner to expert.
