WELCOME BACK!

Hoosier Racing Tire is excited for another great year of Formula Race Promotions action! We're proud to continue our partnership with FRP and are eager to provide teams with technical support and trackside tire service.

While there are no tire model changes for 2026, the at track service operations will now be provided by our distributors Hoosier Tire East, Hoosier Tire Midwest, and Hoosier Tire South Road & Drag. It is **important** for teams to submit their pre-orders at least 2 weeks in advance to ensure all stock is shipped to distributor locations with sufficient lead time to load service trailers and travel to the event. The distributor servicing each FRP event is below.

Tire Declaration & Service Fees

Race tires that are declared for use in competition must carry a service mark that validates the tires were procured from the official Hoosier Racing Tire service truck on site at the event. Each distributor will apply the unique service mark at the time of sale. Tires must be declared to FRP tech before the qualifying session. Any previously used tires or new “off-site” tires cannot be declared for competition use, but can be used for practice sessions. There will be a service fee for mounting & balancing and a scrap tire disposal fee.

Our team extends its deep appreciation to the entire FRP community for their continued support and we look forward to another successful season in 2026!

Thank you,
