## Public Access to Name and Postal Addresses of Ratepayers

The Dunedin City Council holds information from the Ratepayer as part of its rating process. In accordance with Section 28 C of Local Government (Rating) Act 2002, a Ratepayer can request to have their name and/or their postal address withheld from the Rating Information Database (RID).

Every Ratepayer has the right to request that this information be withheld, but this request must be in writing, on [Withholding names and postal addresses from the public Rating Information Database \(RID\) form](#) .

Please note that bulk collection of names and postal addresses is not permitted under the Act.

## Disclaimer

The RID is regularly maintained and therefore is subject to ongoing change.

This information is provided under Section 28 of the Local Government (Rating) Act 2002 as an online representation of our Rating Information Database (RID). The Council Rating Information Database (RID) is freely available to the public at Dunedin City Council, in the same form as is available here. The information presented here is current.

The authoritative source for Certificates of Title is Land Information New Zealand (LINZ). The information provided here is a guide only.

## Rating Differential and Land Use

The Rating differential and land use described herein are the current uses of the rating unit, and not necessarily the District Plan zoning of the property. For all Planning enquiries, please contact the Duty Planner at the Planning Enquiry desk on the 1st floor of the Civic Centre, 50 The Octagon, Dunedin.

## Guide to Sale Details

For the first time, property sales data is available on the DCC website, under the Rating Valuations Rules 2008. The information has always been publicly available, but has previously been released on request, rather than being available on the website with other rates information details. In line with moves towards greater transparency of information, the DCC believes the sales data should be easily accessible and that the website is the most appropriate place for it.

The Rating Valuation Rules state councils should make sale details available to the public to provide transparency of the rateable values. The sales data covers all property, e.g. residential, commercial, and farmland, apart from the exceptions outlined below.

Key points about the information displayed:

- Only the most recent sale within the past three years is shown at any one time and this will be updated regularly. Sales data outside this timeframe will not be displayed as it does not provide a valid comparison with current property rateable values.

- It includes the gross sale price, the date of agreement and the settlement date. The gross sales price may include GST if applicable.
- Only sales which can be matched to a whole rating unit are shown, e.g. If someone buys a house and the vacant section next door in one transaction, this sale will not be shown as the price for each property cannot be separated out. Multi sales and part sales have not been included for the same reason.
- Other sales not included are those which are transfers to trusts, relationship property or transfer by survivorship as these are not true sales.
- The sales data is not for commercial use.

**Please be aware that the rating valuations do not include chattels but the gross price does.**
