

Research Paper Acknowledgement Example

I would like to express my sincere gratitude to my advisor, Dr. Daniel Kovacs, for his guidance, patience, and constructive feedback throughout the research process. His insight was instrumental in shaping the direction of this study. I am also thankful to the members of my committee for their careful review and valuable suggestions.

This research was supported by funding from the Department of Sociology, whose resources made data collection and analysis possible. I also appreciate the assistance of the university librarians and research assistants who helped locate key materials and manage data.

Finally, I would like to acknowledge my family for their encouragement and understanding during this project. Their support made the completion of this paper possible.
