

MERCY COLLEGE ALUMNI Where are they now?

Introducing :	Name: Nancy Di Grande Class of 2007
Questions:	Responses:
Hello Nancy!	Hi!
Thanks for sharing your story!	AMDULANO.
Do you remember what it was like at College and when you left?	It seems like yesterday!
	I was heavily involved in many of the sporting teams either playing or coaching. I was also part of student leadership team through house captain so I kept myself busy. My biggest fear was leaving school as I didn't really know what I
	wanted to do. Everyone else seemed to have a pathway sorted except for me.
	What I took away from Mercy was to always work hard and stay positive.
Did you set out with a career plan?	When I finished all I knew was that I had a love for sport. So I decided I'd start there. I started with a Diploma of sport and recreation and completed the 2yr course.
	I then went on to begin studying a double degree in Exercise Science and Psychology. I did however only complete first year. After that I took a year off to take on a bit of musical theatre training before finding Paramedics.
	Whilst studying I worked a variety of jobs from coaching kids, swim teaching, working as a head trainer at a VFL football club to lifeguarding.

MERCY COLLEGE ALUMNI Where are they now?

What were the significant milestones	My biggest milestone by far was moving to QLD!
that have impacted your life journey so far?	That's was when life finally started to fall into place.
	Living in my dream location (The sunshine coast), working my dream job (Paramedic) even meeting the man of my dreams!
Where has your career path taken you in terms of connecting with wider organisations, meeting people of varying cultures; locally and internationally?	I'm very fortunate in my career path. I get to meet a variety of different people from all walks of life. From babies to 110 year olds.
	Those who are underprivileged to those who are rich. Living and working in a tourist destination means we also meet people from all over the world.
	Everyone has unique stories which are all interesting to listen to. We also work closely with other organisations such as fire, police and mental health organisations which have given me a greater insight into how these organisations work.
Have you maintained any school friendships?	I have actually maintained a friendship with my 2 best friends from Mercy, who are still my best friends today.
	This has been great as we know where each other have come from and are very supportive of each other's paths.
	With social media these days you still get to keep up to date with what everyone from school is up to, which is great.
What's next for you?	That's a very good question. Long term I do have a Graduate Diploma and Master's I'd like to study and perhaps become an Intensive care paramedic down the track.
	For now though my main focus is to become the best paramedic that I can. I also worked at the Commonwealth Games this year, 2018, which was exciting and rewarding!
	Guerris Geternitus

MERCY COLLEGE ALUMNI Where are they now?

Mercy College are working on building the Alumni foundation network: past students and teachers.	I would be interested in talking to current students. I know it wasn't easy for me as I was lost for so long. I'm sure there are students out there now who may be feeling the same way.
Would it interest you to give a short talk to current students at an assembly?	There's always a way and you will eventually work out what you want to do, sometimes it just takes a little longer.
The objective being a form of encouragement and interest for students and teachers alike.	
Future Alumni reunions – past students and teachers, will take place every year on the third Sunday in October.	Yes I would. I did unfortunately miss our reunion last October as it clashed with work.
Would it interest you to give a short talk to Alumni at our reunion?
