

VAULT™ Registration & How-To Guide

for PARENTS/PLAYERS/COACHES

Each coach & player must first create an account before anything else.

IMPORTANT NOTE: Parents – Please create an account for your child with their information, not your own. Later in the process you will be able to add your own information to their account as a parent/guardian.

I already had an account on the old version of Vault – but my login info isn't working. I am a new user and I need to create my first Vault account!

Go to

https://prod-vault-v4.unitedfutsal.com/auth/login

and click on "forgot password." Follow the prompts to reset your password, and then your login will work.

Go to

https://prod-vault-v4.unitedfutsal.com/auth/login

and click on REGISTER NOW. Follow the prompts and fill in all info to create your account. For step-by-step instructions, CLICK HERE.

After creating your account, the next step is to join a club. This can be done in two different ways:

Apply to join a club by following THESE DIRECTIONS. The club director will then have to accept you.

Your club director can invite you to join the club. Once they have invited you, you must login to your account and accept the invitation in the "notifications" area. For step-by-step directions, CLICK HERE.

Your account is now registered and you have been added to your club.

Interested in upgrading your account? You can find step-by-step directions for that HERE.
