

How to... embed Google Drive in Notion

Embed Google Drive in Notion for easy access to the docs you use most often

Step 1 - Setting up the connection

1. Go to the left hand menu in Notion
2. Click on Settings and Members
3. Click My connected apps and connect to Drive
4. Close the window by clicking out of it

Step 2 - Creating the embed

1. Open the page where you want to add the embed
2. Type /google and select Google Drive
3. Select the Drive you'd like to access
4. Click the doc you want to embed and Select. You will now see a hyperlink preview of your doc.
