HOW TO UPLOAD & PLACE YOUR IMAGES

A video tutorial: <https://youtu.be/hxJn7OI5xy8>

To customise some of the templates, you will need to upload your images. To do so, go to the section 'Uploads' in the left sidebar and click on 'Upload and image' or simply drag and drop the photos on the tab.

Then, simply drag them to the image box set up in the templates from the Canva left sidebar to replace the images. When the photo is released it will fill in the frame.

By double-clicking on an image, you can move the image inside the frame and then slide the image to modify the positioning and zoom. To replace an image simply drop the new one over the current one.

HOW TO EDIT TEXTS

A video tutorial: <https://youtu.be/HAtmt2q08sA>

Editing Canva texts is very easy, just double-click on the text box and type in your text. The Canva interface enables you to easily change the font, select colours, edit size & spacing.

Please note that with Canva's free version you can only use their pre-selected free fonts. To use a custom font, you may need to upgrade to Canva's Premium version.

IF TEMPLATES LOOK BROKEN AND UNTIDY
