TEMPLATE)

STEP 1 - PREPARE

Login to your Canva account or create your FREE
Canva account via this link www.canva.com

This template works for both free and pro Canva
users.

STEP 2 - COPY

Copy the template by clicking the linked button
above on this document. Once you are redirected,
click on "Use Template" and the template will
automatically be added to your account.

STEP 4 - EDIT

Customise the template to match your brand. To do
so, place your image and texts and also change the
background colours and text colour as needed.

STEP 5 - SAVE

To export your finished designs click 'Download' in
the top right corner.

You'll be able to select the file format, and the pages
you wish to export.

HOW TO UPLOAD & PLACE YOUR IMAGES

A video tutorial: https://youtu.be/hxJn7OI5xy8

To customise some of the templates, you will need to upload your images. To do so, go to the section 'Uploads' in the left sidebar and click on 'Upload and image' or simply drag and drop the photos on the tab.

Then, simply drag them to the image box set up in the templates from the Canva left sidebar to replace the images. When the photo is released it will fill in the frame.

By double-clicking on an image, you can move the image inside the frame and then slide the image to modify the positioning and zoom. To replace an image simply drop the new one over the current one.

HOW TO EDIT TEXTS

A video tutorial: https://youtu.be/HAtmt2q08sA

Editing Canva texts is very easy, just double-click on the text box and type in your text. The Canva interface enables you to easily change the font, select colours, edit size & spacing.

Please note that with Canva's free version you can only use their pre-selected free fonts. To use a custom font, you may need to upgrade to Canva's Premium version.
