

A modern interior scene featuring a curved, light beige sofa. Next to the sofa is a small, round, dark wood side table with a single leg, holding a small green potted plant in a white pot. The floor is covered with a carpet featuring a geometric pattern of squares in various shades of brown and grey. The word "Margin" is overlaid in large white text in the center of the image.

# The Story Behind Margin

In design, margins define space, establish rhythm, and sharpen focus. Inspired by this principle, Margin brings order and boldness to commercial interiors.

This is a medium commercial carpet plank and tile range that embraces contrast, pairing cream or charcoal bases with nuanced, warm tones and directional tessellations. The result is a floor that frames every element of your environment, offering visual texture and graphic precision thanks to our Stainproof Miracle Fibre.

Margin doesn’t just fill a space - it defines it.

# Installation Methods

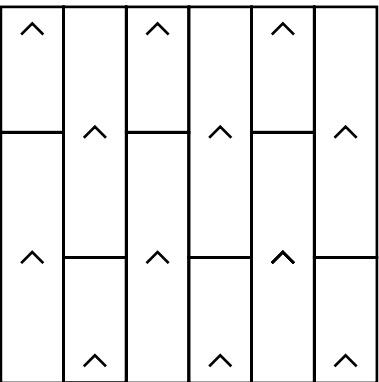

Margin tiles come in a 1000 × 250 mm plank format and a 500 × 500 mm square format, giving you total flexibility. Mix and match colours for striking patterns or subtle blends.

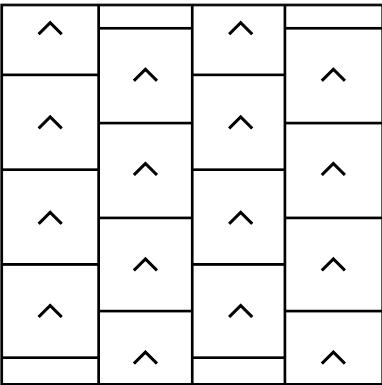

**Herringbone**  
Bold and graphic — perfect for defining feature zones.

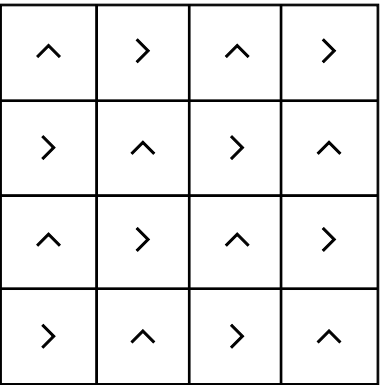

**Staggered Ashlar**  
More movement, less repetition. Great for creating visual flow.

**Ashlar**  
Clean and structured — ideal for modern, minimalist spaces.

**Ashlar**  
Uniform and orderly — ideal for creating a clean, seamless look.

**Tessellated**  
Dynamic and balanced — great for subtle pattern and texture.

## Tufted Tile Installation Disclaimer

All Belgotex tufted tile products are supplied with an installation direction fitting guide. There are many ways to create designs and textures with tufted tiles. These textures are achieved by varying the pile heights of the yarns. When tiles with different heights are installed in the same direction, the joins may create a noticeable “zipper effect” - this is not a manufacturing defect. Belgotex recommends moving tiles around during installation to minimise this effect or any texture variation. It is also recommended that all tufted tiles be laid in a tessellation pattern (90° / quarter turn) for optimal visual consistency.

Product Specifications

Technical Specifications

Use Classification:	(EN 1307)	32 Medium/General Commercial
Construction:		Tufted Multi Scroll Loop Pile
Product Description:		Tufted PP Loop Pile Bitumen Plank/Tile
Yarn Type:		Stainproof Miracle Fibre (Polypropylene) Stainproof SDX (Solution Dye Nylon) - Certain colours
Yarn Mass:	(ISO 8543)	±550 (g/m²) / 16.22oz/yd²
Total Thickness:	(ISO 8543)	±6.5 (mm) / 0.2559inch
Total Mass:	(ISO 8543)	±4075 (g/m²) / 120.186oz/yd²
Standard Plank Size:		100 × 25cm / 39.37 × 9.84inch & 50 × 50cm / 19.69 × 19.69inch
Standard Backing Type:		NexBac

Product Disclaimer

Product characteristic may vary due to the nature of manufacturing. To combat colour variance do not install more than one dye lot in a single colour tile installation. Where different dye lots and products are mixed and matched then size variations could take place, and tiles might need to be altered during installation. If you are installing multiple colours in a random pattern, mixing dye lots together won't be a problem. Sample swatches have been cut from an overall design; therefore, the design and shades may vary. A difference in appearance from the pattern is likely, as the product is not intended to have a uniform appearance. During installation of this product there could be visible tile joins due to texture and design, this is not a manufacturing fault, tiles need to be moved around the in the installation.
