“Leadership Scholars joined a university-style seminar on philosophy and leadership, where they shared their views and examined their culture through great texts from the past.” - Dr. Miller

*What is Leadership?*

# Leadership Scholars

This past July, rising high school seniors from southwest Ohio and beyond came to a Miami University for a week-long Summer Scholars experience on leadership, funded by a grant from the Teagle Foundation. These Leadership Scholars studied transformative texts with Professor of Philosophy, Dr. Elaine Miller and mentors from the H.A.S.S Scholars program. Along with one-on-one writing tutorials, students explored college admissions, connected with mentors and enjoyed daily social activities. Students will stay connected with their H.A.S.S. mentors through the fall admissions process and were encouraged to apply to the Bridges program.
