

DAIRY RANGE

Maximize® Pellets

Maximize® is a high-energy, high-starch feed designed to increase the energy intake of cows grazing high-quality pastures without the risk of acidosis.

Features

Benefits

Nutritionally balanced ration	> Meets the demands of high-producing cows
High energy and high starch	> Increased milk and milk protein production
Can be fed safely to dairy cattle	> Needs no introduction period
Provides a stable rumen environment	> Allows the rumen bugs to work efficiently to extract more energy from grass and concentrates
Medium protein ration	> To balance high-quality pastures
Vitamin/trace mineral premix	> Provides essential vitamins and minerals for high-producing cows
Bypass protein added	> Together with a stable rumen, allows more efficient use of soluble N by rumen bugs - less N excretion and higher milk production
Complete supplement	> Additional feed additives normally fed to prevent acidosis are not required
Contains Bovatec® (Lasalocid sodium)	> As an aid in the prevention of coccidiosis > Aids in the reduction of bloat from pasture and reduction of ketosis in dairy cattle which can aid in reducing the incidence of clinical mastitis in lactating dairy cows
Pelleted feed	> Reduces dust and prevents wastage
No ingredient separation	> Even nutrient blend received by each cow
Raw material receival standards	> High quality and safety of ingredients for quality assurance

NUTRITIONAL ANALYSIS

Nutrients	Dry matter basis
Crude Protein (min)	14.0%
Metabolisable Energy (est)	13.0 MJ/kg
NDF (min)	22.0%
Calcium (min)	1.1%
Phosphorus (min)	0.4%
Lasalocid sodium from Bovatec®	66 mg/kg

INGREDIENT SELECTION

Wheat, barley, oats, lupins, canola meal, limesand, monocalcium phosphate, vitamin/trace mineral premix, Lasalocid sodium.

FEEDING DIRECTIONS

Maximize® is designed to be fed to dairy cows in all stages of lactation, providing a safe, high-energy source to cows grazing good-quality pasture.

Maximize® can be fed in a bail or as part of a total mixed ration (TMR). The quantity fed should be adjusted according to the cow's production and body condition, and the availability of quality pasture.

Maximize®
Maximum milk yield, minimum fuss.
