

# OSEP Trainers

OSEP as a regional training provider have identified and engaged active national trainers and sport experts from the Pacific Region to join its team of OSEP Regional Master Educators. One of OSEP's goal is grow the pool of Pacific Island sport experts in each country, Regional Master Educators in each Zone, and experts at all levels of the Trainer Pathway. OSEP has also invested in providing continuous opportunities to develop Pacific Island experts in each of the OSEP streams.

## OSEP TRAINERS

1. A **Mentor** is the highest level of the Trainer Pathway and is also the expert in their specialized OSEP stream. See OSEP Pathway to find out what courses a Mentor is accredited to deliver.
2. A **Regional Master Educator (RME)** is accredited to deliver competition and national level courses in one or more of the OSEP courses across a Zone or the Region. One of the main criteria is the RME must be actively delivering courses in their home country. The OSEP Regional Office has provided opportunities for national Master Educators to deliver courses regionally as part of their training to become future RMEs.
3. An **Expert** is a professional that has expertise in a particular sport field or area. Experts may not necessarily be accredited OSEP trainers, but are often invited to co-facilitate OSEP competition level courses because of their expertise in the specific content area. In this case, the RME takes the lead in facilitating the course to ensure a competency-based training is delivered and engages the expert to support the content delivery of the course.
4. A **Master Educator** is a "Train-the-trainer" at national level and is accredited to deliver Community and Competition level courses.
5. An **Educator** is the entry level of a trainer at national level and is accredited to deliver Community level courses.

6. A **Presenter** is an introductory course in the Trainer pathway. This course introduces the basic skills of how to plan, present, review a session and establish learning outcomes.
7. An **Assessor** is an introductory course in the Trainer pathway. This course introduces what is an assessment and how to conduct assessments against an established learning criteria.

*To become an OSEP Trainer, contact your National Olympic Committee for further information.*

## OSEP MENTOR(S) AND REGIONAL MASTER EDUCATORS

Listed below are the active and accredited OSEP Mentor(s) and Regional Master Educators.

An OSEP Trainer participant is someone who has attended a trainer course, but has not necessarily completed all requirements to receive OSEP Trainer Accreditation. By the end of 2021, OSEP has trained 700 plus trainers across the 15 NOC member countries of ONOC.

An OSEP Accredited Trainer has attended an OSEP Trainer Course, has completed all training requirements and is awarded an OSEP trainer's license. By the end of 2021, OSEP has 80 licensed trainers across the 15 NOC member countries of ONOC.

An active OSEP Accredited Trainer is a licensed OSEP Trainer that has delivered at least one course in the current year.
