

VOX® Community Table
Nienkämper

VOX® Community Table
Nienkämper

Vox® Community is available in 3, 4 and 6 person configurations, with each desk's height adjustability operating independently at the push of a button. Additionally, Vox® Community desks meet federal ADA STANDARDS. The height adjustable desk can be fitted with a curve to improve accessibility for wheelchair users of different sizes and styles. Base cabinets provide under-surface storage, integrated technology for efficient power, cable management and access to wiring and floor monuments. The raised console can be used in many ways, such as a divider for added privacy between or additional storage.
