

Gateway™ Height Adjustable Tables:

- Gateway Height Adjustable Task tables can easily be adapted for open plan working environments, touchdown spaces, meeting tables and break out areas.
- Gateway Task includes multiple table options that also integrates flexible power and data. Table tops are available in wood veneer or laminate. An optional 24"H acoustic divider panel provides sound dampening and privacy in an open environment. An optional rechargeable battery discreetly mounts to the underside of the table making re-configuration simple with no cords to manage. Available on glides or low profile locking casters.
- Table sizes available for selection:

Shape	Table Length	Table Depth	Table Height
Rectangle	60", 66", 72", 78", 84" 90"	24", 30", 36"	27"-54"
Rectangle with soft corners	60", 66", 72", 78", 84" 90"	24", 30", 36"	27"-54"

- Tables can be specified with a variety of power/data/video/audio solutions.
- Tables are equipped with corded power as standard with the rechargeable battery being an add on option.
- Multiple control switches are offered: recessed, paddle and blue tooth paddle.
- For installations with large amounts of cable an additional Cable Conduit can be purchased.

Gateway™ Divider:

- The Gateway Divider is a piece of support furniture related to the Gateway Height Adjustable Table collection. It is a centralized, freestanding piece of furniture that can be used as a partition and recharging station for battery operated tables and a home base for corded tables. The divider plugs to building power and can be daisy chained with other dividers.
- Divider sizes available for selection:

Divider Length	Divider Width	Divider Height	Divider Height with Glass Panel
48", 60", 72", 84"	3"	52"	66"

- Divider panels are available upholstered in Nienkämper standard fabrics or COM when tackable surface is desired. Whiteboard p-lam, colored p-lam or veneer options available when tack is not required.
- An optional glass, acrylic, p-lam or veneer privacy panel is available for the top of the divider.
- Dividers come standard with 3 circuit / 5 wire modular power system including 2 sided duplexes. Duplex quantities vary depending on the length of panel specified.
- Dividers can be daisy chained together to achieve long runs.
- Contact customer service for power system specifics.
