VOX®
FORUMS

2026

"M & N" Series Vox Forums Pages 209-228

M-Series Forums – 6" wide and N-Series Forums – 12" wide, offer increased capacity and scale. Its modular design makes it simple to configure to your needs

Individual plates can be replaced / retrofitted as required in the field.

POSITIONING VOX® FORUMS ON CONFERENCE TABLES

DETERMINING FORUM PLACEMENT ON TABLES

The following table serves as a guideline for defining and distributing Forums along the tabletop. The rectangular icons on the left are for reference only, as all other shapes in the collection fit within this outline.

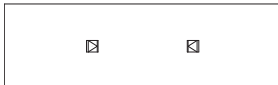

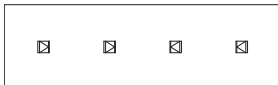

For tables with Access, Tower, and Drum bases, Forums can be positioned over the base and share the same placement options shown for the Duo base in the chart below.

For LCS Tables or custom Forum positioning, please contact Customer Service at **800.668.9318**.

	Tables 72 x 36 - 84 x 42 	M-Series Forum	N-Series Forum	Tables 96 x 42 - 108 x 48 	M-Series Forum	N-Series Forum	Tables 120 x 42 - 132 x 54 	M-Series Forum	N-Series Forum	Tables 144 x 48 - 168 x 66 	M-Series Forum	N-Series Forum

DATA/VOICE WIRING OPTIONS

Nienkämper is a **recognized installer** for data systems described in **Vox® Forum products**.

Vox® Forums can be manufactured with several factory wired data systems including "Hubbell", "Leviton", "Siemon", "Belden" and "Legrand/ Ortronics". All of these systems guarantee the highest level of data transmissions.

Vox® Forum products have been tested by the independent laboratories of these companies and are compliant with all aspects of proper installation and performance.

Nienkämper recommends the use of these **pre-wired systems** as they offer the **best value, quality** and **safety**.

Options for data/voice connections

- CAT 6A
(available in custom plate only)

LEVITON®

- CAT 5E
or
• CAT 6 T568A

THE SIEMON COMPANY

- Max® 5E
or
• Max® 6 T568A

- CAT 5E
or
• CAT 6

- CAT 5E
or
• CAT 6

Nienkämper recommends the use of Vox® **pre-wired systems** as they offer the **best value, quality** and **safety** to the consumer.

Standard Vox Forums are listed by Underwriters Laboratories Inc. under several categories. These listings qualify a level of safety guaranteed by UL's published standards for safety which UL uses as a benchmark for testing and listing products.

The right to bear the UL mark is contingent on the fact that absolutely no alteration is made to the product as it was submitted and tested by Underwriters Laboratories. This is to ensure that assemblies are not manufactured with inferior or replacement parts; this would void or alter the result of the original examination and tests conducted by UL.

The UL mark is included on a label that is attached to the underside of listed Vox® products. This label includes:

- The date the component was assembled and tested.
- A serial number for tracking purposes.
- The listing category located under the UL mark.
- UL file number that can be used as a reference at UL for any inquiries about the product.

SAMPLE UL/CSA LABEL

All listed assemblies have POWER/ELECTRICAL components wired by Nienkämper and undergo the following tests:

Production Line Grounding Test - Continuity: This test checks for grounding continuity between the grounding conductor of the attachment plug and the designated main grounding point including any accessible dead-metal parts of the assembly. There must be grounding continuity between all parts.

Production-line Dielectric Voltage Withstand Test - Hi-pot: Each product shall withstand without electrical breakdown, as a routine production-line test, the application of an AC potential at a frequency within the range of 40-70 Hz or a DC potential between the primary wiring, including connected components, and accessible dead metal parts that are likely to become energized. This test is conducted when the product is fully assembled, and cannot be unwired, modified or disassembled afterwards.

Production-line - Polarity Test: This test verifies proper electrical polarity of both the grounded (neutral) and the ungrounded (hot) supply circuit conductors of the Forum and all parts intended to be connected to the grounded (neutral) and ungrounded (hot) supply circuit conductors of the attachment plug. Conductivity indications must confirm the correct connection of all parts specified.

VOX® FORUM CONFIGURATOR

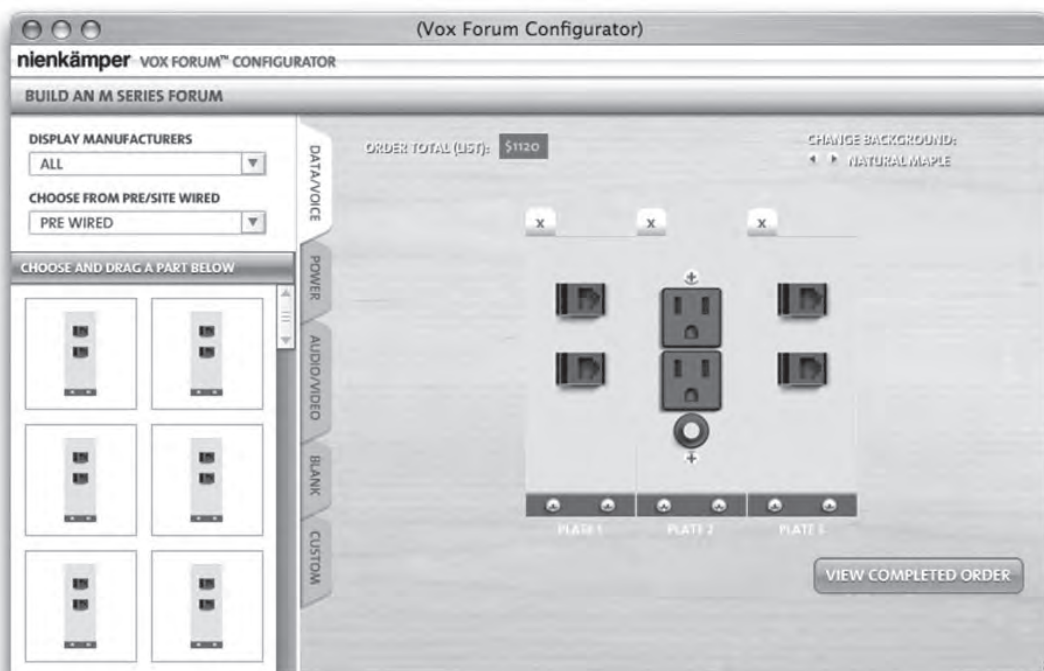

Specifying the “M” and “N” series Vox Forum couldn’t be simpler.

“M” and “N” series Forums can be individually configured online with the “**Vox Forum Configurator**”.

Log onto the Nienkämper website www.nienkamper.com and follow the links or simply type www.nienkamper.com/vfc in your browser and go straight to this online tool.

Configuring your Forum is easy: simply drag and drop the options you want to build the product you need.

CX	105

DESCRIPTION
To build your Forum, select fittings from page 186.

HOW TO ORDER

- 1. From the list of jacks select the part number that describes your selection
- 2. Place the part number in one of three positions on the faceplate illustration "A", "B", or "C".
- 3. Fill in the associated List \$ of each fitting - total the cost.
- 4. Fill in the model number and transfer it to the proper position on the Forum order page 179 (6" Forum) or page 180 (12" Forum).
- 5. Add each modular plate price to complete the total Vox Forum list price.

Complete this for each custom plate required.

VOX® DOUBLE SIDED FORUM

INTRODUCTION

Standard Features

The Vox® Double-Sided Forum features a multi-directional hinged lid, providing access from either side of the table. The Forum sits flush with the tabletop, and the lid matches the work surface finish. A thin aluminum bezel lines the cutout in both the tabletop and lid for added durability and a color detail.

The Vox® Double-Sided Forum is available in a 4-module configuration. Modules can be specified as Power/Charging, Data/AV, Split Plates, or Retractors. Modules can be swapped or repositioned on site if your power or AV requirements change.

Power modules include:

3 simplexes, or 2 simplexes with USB-A or USB-C charging

Power units are available with a pre-wired cord, hardwired feed, or daisy-chain feed.

Data/AV plates contain 4 fittings. Individual fittings can be swapped out, or the entire plate can be replaced on site as needed.

FINISHES

The Vox® Double-Sided Forum is constructed from sturdy aluminum and finished with a durable powder coat. The body is available in Black, Gray, or White powder coat. The lid is matched to the veneer, plastic laminate or engineered stone used on the tabletop for a seamless look.

Custom powder coat colors are available upon request; please note that this may affect pricing and lead times. Contact Nienkamper Customer Service at **800.668.9318**.
