Shaker Table
Nienkämper

Shaker was born from the idea of creating a truly utilitarian table with a pure functional form. Available in standing and seated heights, and in a range of finishes and configurations, Shaker's versatility makes it a proven office work horse for creative spaces, meeting rooms and breakout areas alike.

Shaker's solid wood legs convey a sense of simplicity, all the while blending durability and stability with a robust sense of style. Without unnecessary details, Shaker table's natural finishes bring a sense of warmth and informality to any office environment. But don't be fooled by its simplicity. Shaker tables are available with the same flexible power data connectivity that has become a hallmark of Nienkämper conference tables.

Base Finish Options

-  Walnut*
-  Birch*
-  Oak*

*Note: Solid walnut, birch and oak bases are available in natural finish or any Nienkämper stains.

Connectivity

Nienkämper offers a range of connectivity solutions for the Shaker Table, including a power trough in matching wood grain with a Simple Forum module and 6-cable split plate, as well as options from our Vox® M & N Series Forum, Double-Sided Forum, and Simple Forum collections.
