*Wire pan can be retrofitted to any Moss table.
**Image shown for reference only- actual pan may differ slightly.

MDL# 55060
List Price: \$1,125

To effectively conceal large amounts of cabling, retractor mechanisms, or components for M-Series and Double-Sided Forums, a metal telescopic wire-management pan is recommended. This hinged metal pan neatly hides items that would otherwise hang below the worksurface and is especially beneficial for tables with narrow depths. The pan provides an interior storage depth of 8 1/2", while only 6" remains visible from the outside. It comes standard in a silver powder-coat finish, with the option to match the Moss base interior color for an additional upcharge.

For more details contact customer service at **800.668.9318**

FEATURES:

TOP FINISH- All standard veneers, stains and finishes. All standard plastic laminates and fingerprint resistant laminates. Tops are standard with underside painted silver but can be painted to match base interiors with upcharge. Stone or Interlayer glass top with subtop is available upon request. Please contact customer service at **800.668.9318** for paint and top material options.

STRETCHER RAILS- Standard stretcher rails are supplied in a silver anodized finish but can also be painted to match base interior upon request with upcharge. Please contact customer service at **800.668.9318** for details.

Wood grain plastic laminate surfaces are available on table tops with Facet, Taper and Self edges.

These tops are manufactured with a solid wood edge that is applied prior to the laminate top surface. This method conceals the thickness of the wood edge, while providing the durability required. Wood edges are selected that most closely resemble both the species and the color of the laminate chosen

Nienkämper has pre-selected a number of standard wood grain plastic laminates that represent a cross section of both color and species. Simply include the order code with the model number to make these selections. Alternatively wood grain plastic laminates selected outside of Nienkämper's standard selection can be made by specifying the manufacturer as well as the description and model number of the laminate at the time of order.

COLORED P-LAM

Both Taper and Self edge profiles are available with a colored laminate top.

Laminate edging on Taper tops. Edging will match the top surface and is applied before the surface laminate. By applying the laminate in this way, the seam is positioned horizontally, which makes it much less conspicuous and more durable.

Wood edging on Self and Taper Edge tops are applied before the laminate. By applying the wood edge in this way, the wood edge thickness is concealed, while providing the durability required. Wood species and finishes for edging can be selected from page 8.

For laminates specified outside of Nienkämper's standard selection, specify the manufacturer as well as the description and model number of the laminate selected at the time of order. For Facet edge tops, the laminate must be a post-forming grade.

Translucent edging on Self and Taper edge tops is applied after the surface laminate. The translucent edge is very durable. Clear translucent edge provides a good match with most white-colored laminates, while a silver translucent edge provides a metallic look and contrast to colored plastic laminates.

WOOD FINISHES

Nienkämper offers a wide variety of standard light finishes on cherry, mahogany and figured anagre wood veneers, and a clear natural finish on figured anagre, figured sycamore, maple, bird's eye maple and curly maple.

Light finishes do not mask the grain and other characteristics of each wood species. It is important to understand that pieces of the same type of wood will not look identical when a light finish is used. The appearance of the finish will also depend on the natural color of the veneer. Cherry darkens over time as the wood ages. Pin knots and gum pockets are inherent traits.

Wood is a naturally variable raw material; its variances are not within the furniture manufacturer's control and are therefore not considered defects under this warranty.
