VOX® DOUBLE SIDED
FORUMS

2026

INTRODUCTION

Standard Features

The Vox® Double-Sided Forum features a multi-directional hinged lid, providing access from either side of the table. The Forum sits flush with the tabletop, and the lid matches the work surface finish. A thin aluminum bezel lines the cutout in both the tabletop and lid for added durability and a color detail.

The Vox® Double-Sided Forum is available in a 4-module configuration. Modules can be specified as Power/Charging, Data/AV, Split Plates, or Retractors. Modules can be swapped or repositioned on site if your power or AV requirements change.

Power modules include:

3 simplexes, or 2 simplexes with USB-A or USB-C charging
Power units are available with a pre-wired cord, hardwired feed, or daisy-chain feed.

Data/AV plates contain 4 fittings. Individual fittings can be swapped out, or the entire plate can be replaced on site as needed.

FINISHES

The Vox® Double-Sided Forum is constructed from sturdy aluminum and finished with a durable powder coat. The body is available in Black, Gray, or White powder coat. The lid is matched to the veneer, plastic laminate or engineered stone used on the tabletop for a seamless look.

Custom powder coat colors are available upon request; please note that this may affect pricing and lead times. Contact Nienkamper Customer Service at **800.668.9318.**
