VOX® LCS Signature Executive Office
Nienkämper Design, Jeremy Gibson, Jim Vessel

The LCS Series of Case Goods and tables are an outstanding example of elegant height adjustability.

Height adjustable columns are shrouded inside cases with cables and connections well hidden. Building and convenience power is easily accessed through generous access panels built into the systems layout. A wide variety of cases, closets, overheads, tack panels and worktops are easily configured to provide endless layout possibilities.

In today's world of height adjustable furniture, the LCS Vox® Signature stands out... and up.
