The ultimate in ergonomic elegance, the AYA™ Chair is based on the principles of natural body motion when reclining. The simplicity of function uses the occupant's own weight to control the seating position. As you recline and stop, the chair will stay in that position. There is no tension control, as the weight of the occupant rides up a ten degree incline, using gravity as the resistance and friction as the position control. There is only one control on the chair which adjusts height and locks the seat in one of five positions.

Fabric direction when railroaded

Fabric yardages are based on plain fabrics with no apparent pattern direction. Fabric is railroaded.

When upholstering in two different fabrics or leathers use the COM price or COL price and ship yardages or square footage as noted on page 7. Most fabrics and vinyl are suitable for the top seat portion but the contrasting trim must have stretch.

Nienkämper reserves the right to determine the suitability of COM on our furniture. For further details regarding approvals, refer to page 7.

Specify polished or brushed aluminum frame

Fabric to be upholstered on Wavelength requires approval from Nienkämper's factory. Please contact customer service at 800 668 9318 for our fabric approval list.
