PLEAT™ COLLECTION

Pleat™ Conference Table

design: REPUBLIC OF II BY IV

Tailored form. Architectural presence

The Pleat™ Collection is defined by a single gesture, a fold, inspired by pleated fabric. This detail carries through each piece, creating a cohesive language for boardrooms, private offices, and collaborative spaces. A sculptural base, refined metal reveals, and tailored detailing come together to create a collection that is refined, versatile, and grounded in craftsmanship and precision manufacturing.
