

Number Explorer Missions

Draw a monster with 8 eyes

Using two hands, hold up 8 fingers

Make two piles of four toys. How many toys can you see all together?

Count 8 animals when you are out

Play Together

Make Eight! Find a six-sided dice at home, or use a dice roller online, and take turns with your little learner to roll it. When you roll the dice, count the number of dots that come up and challenge the other player to count up from that number until they reach eight.

Have eight blocks, toys or small household items to hand to help if your little learner gets stuck.

For your next mission, find the episode 'Nine'

Eight

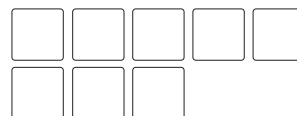

This mission belongs to _____

Fact File
