

# Number Explorer Missions

**When you are out with a friend or grown-up, shout out the first number you see**

**Challenge your friend to find a number greater than the last one**

**Then try to find another number smaller than the last one**

## Play Together

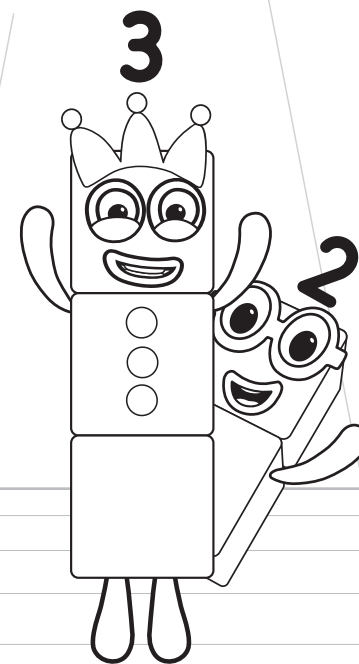

Numberblock Hide and Seek! Cut out all the Numberblocks with your little learner. Take turns to hide one Numberblock behind another. See if the other player can see who is missing and find them! (Tip for grown-ups - Try hiding a big Numberblock behind a smaller one.)

For your next mission, find the episode 'Hiccups'
